"Imagination is more important than knowledge. For knowledge is limited, whereas imagination embraces the entire world, stimulating progress, giving birth to evolution." - Albert Einstein

As educators, we recognize that children are brimming with imagination and creativity, eagerly awaiting the chance to bring their aspirations to life. It is our responsibility to instill in them the belief in the power of their dreams and guide them towards realizing their potential. Through holistic learning experiences, we aim to nurture their dreams and empower them to shape their destinies.

Beyond academic excellence, we emphasize the importance of instilling values and sensitivity in our students, nurturing them to become responsible global citizens. During the academic journey of the students, we hope they learn that success is not merely measured by the destination they reach, but by the journey they undertake to get there. Each obstacle we overcome, each lesson we learn, and each effort we put forth contributes to our personal growth and eventual triumph.

Imagination is an essential part of growth and is a bridge that connects dreams to reality. With our school magazine, we embrace its boundless power, for within its realm lies the infinite potential to create, innovate and inspire. Each page unfolds the remarkable literary and creative expressions of young minds who dare to chase their dreams.

THE *Artisan's Collective*

The human soul yearns to create, and to leave behind something for those who come after us to admire. We wish for our thoughts and experiences to transcend time and space, and to become immortal. For if something we create survives after we are gone, a little bit of us remains in the world to be remembered.

Literature serves this purpose perfectly. It acts like a bridge between worlds; a way to peer into the minds of others. From adventures in mythical lands with strange beasts to a captain's desire to find a whale, literature allows us to experience dozens of worlds through the power of our minds.

Through these pages, this year's editorial team invites you to take a plunge into the world of DPS Bangalore East, boasting the stories of our school's triumphs and beautifully crafted works of art straight from the minds of our bright students.

The team has worked relentlessly, with the vital and ever-present guidance of their teachers to deliver to perfect every single detail, culminating in this year's edition of DPS Bangalore East's very own school magazine, Vibrant Vision.

The activity was a resounding success, leaving a lasting impression on the students. It served as a platform for them to unleash their creativity, think entrepreneurially and gain insights into the world of business.

Dancers exhibit perfect choreography, synchronisation

DELHI PUBLIC SCHOOL BANGALORE EAST

Invictus, an annual event, had a plethora of activities for participating schools to showcase their talent. Footwork Fiesta was held on day two of Invictus. It was more than just dancing and competing. It gave all the participants and the audience a truly memorable, and positive experience.

The event started with a dance showcase by the host show, exciting the crowd with the catchy songs they performed. No particular dance form confined the participants of the group dance competition, and the theme, being "celebration", gave the group dancers a large variety of music for their performances. Seven teams followed the showcase, each depicting unique strengths, leaving the audience spellbound. After all the teams had performed, the judges announced the teams who cleared the first round and gave each team a limited amount of time to choreograph a dance of 30 seconds on any song. The clock ticked away, and the teams greeted the anticipated crowd with their new dances. The audience, including the judges, were mesmerised by the perfection in these dances. The judges had a tough time declaring the winner, as on one hand one team had wonderful choreography, the other was incredibly synchronised. Finally, the team of Presidency School, Nandini Layout was declared the winner of the competition, followed by BGS National Public School as 1st runner up and School of India as 2nd runner up.

MUSICAL PROWESS put to the test in melodic competition

Excitement, anxiety and apprehension ran high on 40 budding young musicians performed at the grand finale of the seventh edition of 'Times NIE Spotlight', Bangalore's largest inter-school music competition, held on Monday.

The competition, organised by Times NIE and Subramaniam Academy for Performing Arts (SaPa) to identify the best musical talent amongst students, saw an overwhelming response from over 3000 students for the first phase of the competition. Of these, 136 students emerged as semi-finalists.

Students from classes 5 and above (Junior and Senior) participated across 7 categories: Indian classical vocal, Indian light classical vocal, Indian instrumental, international music vocal, international music instrumental, percussion and group performance.

These finalists from each category were judged by renowned violinist Dr L Subramaniam and playback singer Dr Kavita Krishnamurti Subramaniam. They also got the opportunity to attend a mentoring session with the renowned musicians. They gave tips on improving skills, voice control and handling instruments, among others.

For the vocalists, Kavita emphasised the importance of learning the basics, especially practicing the pitch, pauses and emphasis on words. It is important to practice each line to perfection, correcting each phrase to the minutest detail before moving to the next. Focussing on getting the pronunciation correct, the pitch right and finishing each line with precision is vital. Students must practice singing from the stomach from a young age to make an impact, she stressed. Congratulating all the participants, she encouraged them to follow their passion for music no matter which career they choose.

Instrumentalists advised that clarity is extremely important and as is the emotional aspect of music. Practising finger movements while playing the keyboard, or holding a violin the right way are crucial. One must ensure the instruments are fine tuned before a performance, he stressed, adding that while performing it is important to understand the position of the solo. Music can be pursued as a career also one should have the passion for it. Music demands patience and hard work and one should not expect results instantly, he emphasised.

THE WINNERS

The winner from each category – the SaPa Star – gets a full scholarship with SaPa for a year. The overall grand prize winners Vinaa Jain from National Public School, Whitefield and Mukesh G from Sadashiva Vidya Mandir get a chance to record their own single, produced by SaPa.

Each of the finalists received a certificate and the winners were awarded certificates, trophies and gift vouchers.

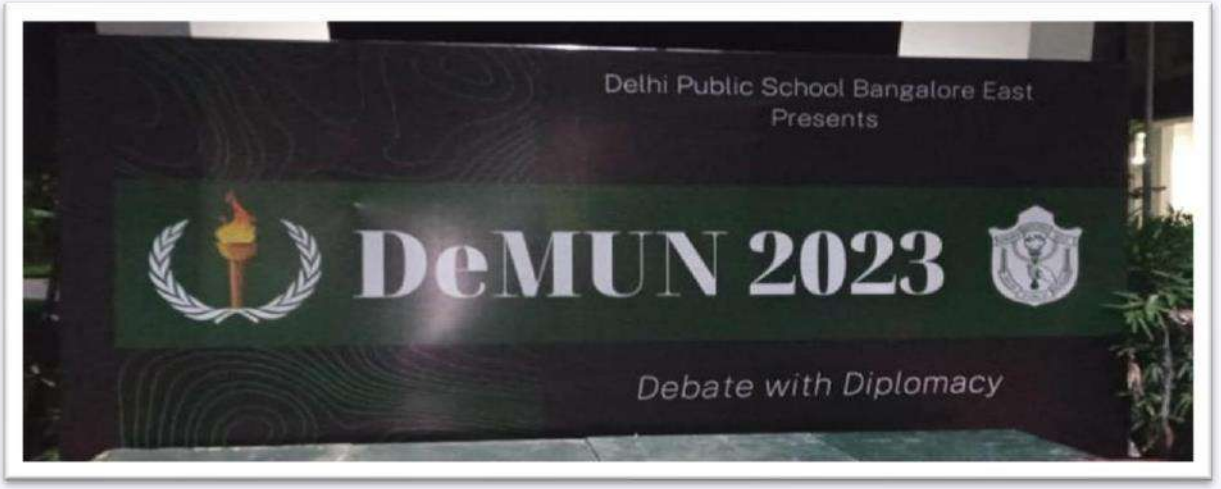
DeMUN '23

"If you want to do a few small things right, do them yourself. If you want to do great things and make a big impact, learn to delegate."

John C Maxwell

Delhi Public School Bangalore East held its second edition of Model United Nation 'DeMUN' on the 21st & 22nd of July 2023. With an overwhelming number of over 370 delegates and 8 different committees, DeMUN'23 was a great success. It started off with the auspicious lighting of the lamp, symbolizing glory and dispelling of darkness followed by a beautiful prayer by our student. Our honourable principal, Dr. Manila Carvalho, enlightened us with her inspiring words and gave her blessings to all the delegates. Our vice principal, Ms. Priti Ssoota administered the 'Sustainability Oath' to envision a better future for all of us. It was an honour to have with us, Ms. Bhavya Narasimhamurthy, State Coordinator of Priyadarshini, Mahila Congress as our chief guest at the inauguration of DeMUN 2023. Her motivating words encouraged the delegates and left them with a sense of responsibility towards their nation. The awards to the best delegate, honourable delegate and commendable delegate in various committees were given away by the Principal Dr Manila Carvalho. The conference was declared close by the Secretary General of DeMUN'23 Dhiya Shine.



The two days of this conference consisted of intense debate between young delegates as they discussed solutions to worldwide problems. The delegates represented countries and people from across the world and held various stances. The UNHRC: (United Nations Human Rights Council) discussed xenophobia and cultural minorities. The AIPPM (All India Political Party

Meet) began with the analysis of the North-Eastern political diaspora and discrepancy, soon turned into an all-out crisis machine, with members being forced to think beyond the proverbial and literal borders of national security. The CCC (Continuous Crisis Committee) chose its freeze date at the time of the Chinese Civil War. The delegates represented portfolios of important politicians during that time period and passed a solution to the given problem. The UNSC (United Nations Security Council) discussed one of the world's biggest terrorist attacks, the 9/11attack on the United States of America which destroyed the twin towers of the World Trade Centre and killed thousands of innocents. The UNESCO: (United Nations Educational Scientific and Cultural Organization) discussed the illicit trafficking of cultural property and heritage. It was one of the most competitive committees, even though most of the delegates were first timers. The US SENATE (U.S Senate Committee on Armed Forces) analysed the provisions of 'Foreign Military Aid Oversight and Accountability Act' with regards to military assistance to foreign governments. This committee held high power in the number of crises introduced to them. The delegates tackled untranslated sources and internal corruption. The UNODC (United Nations Office on Drugs and Crime) discussed drug trafficking by sea and prevention of maritime piracy. The IPC (International Press Corps) was a group of journalists representing different news agencies from all across the globe who reported on the running of each committee, conducted press conferences which unravelled a new side of the delegates, and had their own debate on freedom of speech and censorship with regards to the government. Along with that, the international head of press conducted press conferences on various committees which showed how aware the delegates were of their countries.

This edition of DeMun'23 was filled with one of the best Executive Boards in the circuit who handled their committees gracefully. The three months of hard work of the organizing committee and the secretariats clearly paid off with an outstanding presentation and experience for every individual present. This conference was filled with excitement, enthusiasm, nervousness, anxiety and above all: 'Debate and Diplomacy'.

Indo- German Student Exchange Program

"Tolerance, inter-cultural dialogue and respect for diversity are more essential than ever in a world where people are becoming more and more closely interconnected."

- Kofi Annan

Learning beyond the classroom is an amazing experience that will journey with us for years together. The Indo-German Student Exchange Programme was held in July 2023 for the students of Grade VIII, IX and X. It was a spectacular learning experience for our students, fostering cultural exchange and mutual learning. After our students visited Julius Echter Gymnazium, a school in Elsenfeld, for about fifteen days, the German students visited our school for the same duration of time. The quality exchanges which happened during this phase was an experience in itself. The tremendous cultural exposure as well as the memories cherished meanwhile will long be remembered by the students.

“We are what we repeatedly do. Excellence, then, is not an act, but a habit.”

Limitless energy, creativity, intellect, and skills thrive when challenged through competition and public evaluation. This environment sharpens students' abilities and bolsters their confidence. Since its launch in 2020, ABLAZE, the Virtual Inter-School Cultural Fest, has provided a platform for students and schools across the region to unite, compete, collaborate, and forge lasting bonds and memories.

This year, the Primary segment of Delhi Public School Bangalore East continued this tradition by hosting the three-week-long Virtual Inter-School Fest, ABLAZE 2022, to ignite the competitive spirit in the eager and dynamic young students. We are extremely pleased with the fest's success and overwhelmed by the enthusiastic participation from all the students.

All participants prepared fervently to shine in their respective events. Embracing the idea that music breaks down barriers and unifies us, our Melody Makers showcased their creativity, boundless imagination, and musical prowess through enchanting performances. Our children pieced together colorful shards, crafting mosaic masterpieces that told vibrant stories through tesserae in Mosaic Magic. Meanwhile, the gifted dancers with their nimble feet captivated us in Twirl & Twist with their vibrant, standout performances and ingenious use of stage space. Their moves were impeccably executed with flawless choreography, rhythmic precision, and compelling presentation. It was often said that "young minds are a treasure to explore," and this was vividly illustrated in Kavya Tarang, where participants highlighted their thoughts and emotions with poetic flair. Our little chefs, with beaming smiles, joyfully created culinary masterpieces, turning the kitchen into a playground of flavors in Skillet Masters. With faces painted and words unspoken, children delved into the silent world of mime in Silent Serenity, expressing tales through gestures alone.

Events like this create opportunities for innovation and discovery, allowing students to learn and thrive. They represent the culmination of many factors: the diligent efforts of teachers, the passionate involvement of students, the trust and backing of parents, and the steadfast support of the School's Management and Principal.

We extend our heartfelt thanks to all the participating schools, their Management, Principals, and teachers for their support of this event. It's also a perfect moment to express our deep appreciation to our Management for their constant encouragement in all our endeavors.

Echoes of Yesterday

Remember once, when you spoke to me, revealed your deepest secrets to me, and shared your memories and made new ones, with me? Now you don't even talk to me anymore. I don't even hear your voice, anymore.

Remember once, when we walked all along the city, painting the town red together, you and me? We had each other's back, and it felt for once that we were on the right track. But now you don't even look at me.

Remember once, when me and you used to sing along to the radio, and at night I used to sing you to sleep, tucking you under the blankets, holding you in my heart, so dearly? Now when you sleep, you are not in a room with me. Those days are gone, and you have grown up. Do you even remember me?

Nowadays, whenever I try to stir up a conversation, your eyes are glued to your silvery screens. Maybe on the new T.V, or a brand-new mobile phone, obviously more interesting than me. Back then you used to listen with keen eyes and upright ears, but now you just completely ignore me.

Have you forgotten all my tales of old Vikings and pirates, or even the tales of my childhood? How different and sweet life was back then, but now it's like I was never there. Maybe you really don't remember me.

Times are 'a' changing. Your old grandpa misses you. Your sweet voice, calling out my name. Your old grandpa misses you. He can sense these things. You are slipping away from love and warmth, into cold despair. Oh dear, when will you ever come back to me?

The Living World

Running through a field with all flowers abloom,
Aesthetic and admiring nature always takes away my gloom
Here and there are flamboyant flying butterflies,
The dark night sky is embellished with radiant fireflies
Nightingales' songs break the deafening silence,
Each of its chirp is filled with effervescence
Now everyone's uprooting the bloomed trees,
Now there is smoke and dust instead of fresh breeze
The Bengal Tigers are spotted once in a blue moon,

The same nature is cursing us which was once a boon
Humans and the Mother Earth are now having a civic strife
Oh honey, how can we ever bring back the extinct life?

HOPE

As the sun dawns upon, humanity wakes up with new hope
The ray of hope which was faded for the dusk was upon
The rich and poor alike, want to seize the day which God has bestowed
With every passing day,
There is an onset of seasons
People question what is coming their way
It seems like it is the
Spring of Hope and the winter of distress
Sometimes it just seems like a fallacy
Countries are fighting among themselves
Not focusing on global poverty
People are losing their lives
But it doesn't seem to care the noisy authorities
Its love and hate, both in superlative degree
There seems to be no proportionality
It all seems like smoke and mirrors
The ray of hope is slowly dwindling

Promise of A Better Tomorrow

All your pains, all your sorrows
Will one day fade away
Time will get you through it
So just wait for another day
When you'll close your eyes
And relive the pain
You'll feel like living
Is all in vain
But once you decide to rise up again
You'll see all you have yet to gain.

Speak Up – A Freeverse

I had a dream. A nightmare, rather
as I slept soundly last night:

A hijab veiled face with watercolour eyes
soaked in a pool of blood,
and helplessness and fear.
She was a baby. Where is her mother?
Her family? Why are her wails
echoing through the cannonaded marketplace?
And in the distance is a man
caressing a lifeless brother,
though not by blood, but by the
bond of love mankind is defined by.
Is supposed to be, at least.
This custom of taking arms,
taking lives, taking humanity out of
our own hearts is nothing new.
And twenty two thousand eight hundred thirty five
is nothing more than an unfortunate number,
not families broken, futures dismantled,
friends stolen away.
"Brutally murdered" is a phrase;
a mother shot eight times in the chest,
roaming through a desert of fallen homes
searching for a daughter she doesn't
know is long gone -
a reality not too accurately described by it.
Sunlight has wandered away
from that patch of ground which is now
watered by blood of the innocent.
They aren't like us: we breathe air;
they breathe gunpowder and explosives.
And you can go ignore it; turn off the T.V.,
end the newspaper subscription,
crouch in the corner:
oblivious, negligent.
But that five-year-old boy need
barely look out his window to
know of the bloodshed and combat.
He is living it; you are intimidated just to know.
What is your excuse? The cliché 'mental health'?
A selfish justification to your ignorance
when you could just speak up.
Speak up for those thousands of
slaughtered souls, bequeathing
nothing but peace and love and a voice
to speak up for their silenced belief.
What are you afraid of? A hate comment?
A dislike, or one less follower?
Well, I'm afraid I could've saved a life
and I didn't.
I'm afraid I could've changed their minds
but I didn't.
I'm afraid that when I'm gone I'll be remembered
as a spectator of their crimes,
not a pacifist who tried;
not a child who witnessed violence and chose
to make a future without any;
not a citizen of this world, but
a mere occupier of its land.
So, speak up for your children, who can proudly say,
"My mother chose to raise her voice over ignorance."
Speak up for our bleeding counterparts
suppressed in warfare.
Speak up as a human;
speak up for the humans.

All about the life in Switzerland

I would like to share my stay in the heavenly country, Switzerland which I consider an opportunity for the lifetime.

Life in a foreign country is more exciting, more daring, and more adventurous. One can do many things and have fun as much as one likes. As everyone knows, Switzerland offers a wide range of activities to do. One can surf and ski in the snow during winter and swim in the swimming pools in summer. Switzerland is known for the tourist spots that one can visit during the break. Some places where one can cherish and take memories home are Zermatt (where there is the famous mountain "Matterhorn"), Leukerbad (where there is an awesome swimming pool to perform various sports), Mount Titlis, etc. It is a breathtaking experience to visit these places. There is a ropeway which one can take and, on the way, one can enjoy the amazing experience. The best time to visit the mountains is during the winter, when the mountains are covered with snow.

The academics in Switzerland is little different from the Indian education system. On one side, the Indian Education system has more depth in the subjects of the curriculum than Switzerland. However, the mode of education in Switzerland Public school is a mixture of academics and extracurricular activities. Students have to go to the school for four- and- a- half days only in which Wednesday is a half day. One interesting difference about schools is that there is no uniform. There are public schools everywhere in Switzerland since International schools are not affordable for everyone. I used to stay in Brig, a town in Switzerland for 11 months, in the year 2022. I studied in the 7th standard during that time. German, French, and Italian are the official languages of Switzerland. In Brig, German was used more often, compared to French. I studied in a German Medium Public School during my stay. In my school, special German classes were provided for those who needed guidance in German. Other than that, English and French were also taught. Schools ensured that students were fluent in languages. We also had Maths and Science which is known as Nature and Technique over there. Sports classes were conducted twice a week. There was also a Value Education class where values about ethics, religion, and community were taught. The teachers treated us lovingly with care and passion. They made sure we weren't facing any problems in school. They were always there to guide us. In addition to that, there were cooking and carpentry classes which I enjoyed a lot.

Summers provide a moderate temperature ranging from 15 degrees Celsius to 30 degrees Celsius from May to October. From October, it starts to get cold. Temperatures go beyond 0 degrees Celsius which becomes tough to manage.

During the winter season, people relish chocolates and cheese which Switzerland is famous for. Some famous cuisines in Switzerland are Fondue, Rösti, etc. People use soaps and products from Italy, France, and Germany since Switzerland borders these countries.

To go from one place to another, people use buses and trains as modes of public transport. There are buses with a gap of half an hour which are easily accessible. People also travel by car. Switzerland is one of the cleanest cities I have ever seen. Roads are so clean and there is less pollution which offers healthy air to breathe, leading to a healthy lifestyle, free of diseases. Health is Wealth! Switzerland, altogether is an excellent place to live and will always be one.

Thank you.

Furrows of Resilience

Under the hot summer morn lived a man,

His sweat strong as ocean waves,

No matter how much he had, he didn't have a fan,

Made him remember his whiz days.

He kept working like a worker,

The sky's colour changing from dawn to light,

Seasons kept spellbinding from autumn to winter,

But he kept on moving like a spotlight.

Everyone pivot on him like he was a panhandler,

They gracefully acquired what they desired,

No one could beat his genuine zeal and desire,

"Just a farmer," he said.

The Unholy Eye

The Unholy Eye was one of Jeremy Collins' greatest works. Pure talent that had gone into this piece of art was recognised by so many, those gifted with an eye for art and those seeking something intriguing to look at. Even the night guard at the museum could see why visitors flocked to the machine. It stood at the centre of the room, high on a stone pedestal. A detailed sculpture of the human eye, a machine built to mimic the exact movements. The iris was considered most captivating, as when seen from different angles or different positioning of light, it would shift colours. From blue to brown to yellow, it seemed so real. One could feel not just fascination, but a tinge of unease. It was built to blink every once in a while, so that when an unsuspecting visitor walked into the room, they had quite a fright as their eyes laid upon the giant eyeball in the middle of the section. Videos and articles were published about this piece; about what people infer from it. If Jeremy Collins had not died 43 years ago, he would be alive still at the age of 64, to see the ripe success of his work.

Nate scoffed, hitting the side of the torch with his hand. He had only changed the thing's battery last week. It was barely managing to emit a low, faint light, only making it so much harder for him to do his job, one that wasn't even worth that much these days. He rolled his eyes and stuffed his hand into his pocket. Just one night more. He would get his salary tomorrow and he could move on from this dull job. He paused before entering the 'Marvellous Machines' section, to complete his last task for the day, before he would retire to the security room and eat stale chips while watching the camera monitors. The section wasn't his favourite, considering the giant eye at the centre of the room, so watchful. He shook his head. He was just being childish and there was nothing to fear. All he had to do was run the eye a few times, and check if the blinking was smooth enough for the next day. He drew aside the curtains that led into the room and froze. Natural human instincts would not allow him to move from his spot when he saw that forsaken machine, the unnerving abomination that it is. Its pitch-black eyes stared at his own, his reflection a silhouette in those pupils.

He groaned and slowly stalked over to the lever beside the eye, pulling it down. Creaking sounds of metal grinding together filled the room, as the huge

eyelid closed over the glass and opened up again. He ran it over a few times and stepped back to inspect it. The results were the same every night, it blinked slowly every five seconds, and the loud sound of gears coming to life was eventually reduced to a low hum. Relaxing, almost. Just a bit. Nate let the smallest smirk of satisfaction ghost his lips, before blinking the feeling away. Scary as it was, it made for a good showpiece.

Just then a loud screech was heard, and the eye stopped just before it opened fully, half the eye still hidden under that imitation of skin. Nate frowned, his eyebrows furrowing. Keeping his watch on the eye, he turned the lever up and down, just for it to still stay where it was. He sighed, climbing up the stone pedestal. He tried to force the eye lid back to its position, but it remained stuck. He rubbed his temple. Really? On the last day of this job? It would be better if the manager could handle this… he wasn't being paid for fixing it after all, it's not as if his pay would decrease.

He turned around, heading to the exit. Only after the first few steps away from the pedestal, he heard a loud click, as if a piece had fallen into its place. He whirled around, seeing that the eye was wide open. "Good," he thought. It must have been a gear not well-oiled. He should report it. He would if he cared enough. He was about to move, his head almost turned to the side, when he saw something move from the peripherals of his eye. He froze, and turned back around. He felt the eye had moved. Did it? It looked… a bit strange. Perhaps that was just his brain tricking him into thinking so, from fear.

He stood there, frozen for just a while, shut his eyes tight and shook his head. He opened them. It moved, it moved, it moved. It definitely moved. It’s looking up at him, not the ceiling. The ceiling has a skylight, which means as the sun moves, it allows different lighting to hit the iris. That makes it look good and that’s why it’s such a fantastic showpiece.

No, it's fine. It was just his imagination. He just had to get out of here and calm his nerves a little. Maybe he was stressed, anxious and all that. He took a deep breath to relax, never taking his sight off the machine. He heard the click again, and he saw it. It moved, it moved, it moved. The pupil was a set of glass within glass, the iris, within glass. The rest of it. It rotated, turning itself within itself. What was this thing?

He took a tentative step forward, despite the rational part of his brain screaming to turn around and run, to go get a drink. He had some fizzy drink before starting his shift. Is it that? He’s not that lightweight.

He heard a voice then, eerie, quiet and androgynous, echoing throughout the room, or perhaps only his mind. He couldn’t differentiate anymore. He took another step, reluctant, unwilling. Another, another, and another. He was standing before it, and it seemed more horrifying than it ever had.

"Don’t leave.”

He was shaking. His right hand was gripping his flashlight so hard that he thought the rubber covering might slip off. His throat and his mouth were both dry, and he couldn’t have formed a response to wherever that voice had come from, even if he wanted to.

“Don’t leave, Nathaniel. Close your eyes. It's all right.”

Jeremy Collins' had died a young man at 21, so barely close to true adulthood, at least what is considered adulthood in this modern age for a man of good wealth. Already an accomplished artist by then, he was supported by many aristocrats and politicians, and his own father was proud to have a son like him. He had many patrons, and commissions were issued left and right. The eye, however, was his project; an endeavour for himself to test the boundaries of his creativity. It was a marvellous act of artistry, appreciated by all. No doubt, many found it distasteful, awkward, and bizarre. But what could they say, in front of a man already so great at only half their age?

He had finished the eye and was planning to sell it to a collector, after having received many offers for the machine. At his position, art was only a hobby, and he was soon to be married to a woman he had only met once. "It was high time he succeeded the

banking business of their family," his father said. But the day before the eye was to be sold, a day before the artist's death, an entry in the great man's journal was made.

"I cannot leave it, even for the woman I am meant for, nor for my children, because it is the closest love to my heart. What can one love more than their creation? My child, my friend in hand. I have known it for a year, and yet we have understood each other before birth. These will be the last words I write, and he who finds it, will know from my entries how close I have become with it. I would trust it with my life like no other, and that is what I will do."

The very next morning, the man was found dead in his studio, by a maid coming to serve him tea. Eyes gouged out, leaked blood staining his face like forbidden tears. And no other wound were to be seen on his cold corpse.

The murder was investigated by the police, and the museum remained closed that day due to their 'technical issues'. A peculiar murder, it was, with no particular trace of evidence and no proof on the cameras. In fact, recordings displayed that Nate had skipped the machinery section completely, unbothered to his job. He lay lifeless beneath the pedestal.

But what can one do? The manager soon hired another night watch guard, and life at the museum continued without his death being of any hindrance. The police did investigate the case 'as much as they could', they claimed, and it was finally closed due to a lack of evidence and witnesses. "A terrible accident," they said. "Maybe he was insane," they added. Many didn't even know his last name, not even the museum manager, who only provided the needed information after looking over their employee records. No family, no loved ones, and no pets. A shabby apartment and a few belongings were all that was left in his name.

Legacies aren't really reserved for the peasantry, are they?

The Secrets of the Sea

Reya was a 21-year-old woman, who lived all her life near the sea coast. So naturally she loved the sea and was a great swimmer. One day when she and her friends were deciding what to do during the week end, one of her friends, Maya, suggested that they go could scuba diving.

Reya was the first one to agree. She was thrilled when all her friends agreed. So, it was planned that they were going diving that weekend.

Reya felt like the week would never end. Then it was finally Saturday. She was extremely excited. Of course, she had gone diving before but she felt the same amount of fun and thrill everytime. She could hardly wait as she wore her gear. As they walked towards the shore, one of her friends told them that they had two hours' worth of oxygen in their cylinders. "Two hours," thought Reya "So much to see."

As they walked in the water, she could feel the adrenaline rush through her veins. As they started to wear their masks, Maya said, "See you guys in two hours". Reya relished the idea of staying under water for such a long time, as she started to swim. She instantly realised that she was way ahead of her friends, but she decided to continue.

After swimming for about ten minutes, she found a cave. She checked her watch and there was a lot of time left. As she swam into the cave, she was met with darkness. She grabbed a flash light from her belt and switched it on. To her surprise, she saw a statue in front of her. She guessed it was a deity, but she had gone diving in this area many times and had never come across this cave. She placed her hand on the deity and observed it. Then she took out her camera and took pictures of the cave, statue and the carvings. She could say it was a god not a goddess but she couldn't say which one it was. The carvings were magnificent. She placed her hand on a part of the carving under the deity's feet. That particular part went a bit back. She pulled her hand back, afraid that she broke it. She then saw air bubbles coming from the left side of the cavern. She turned to see that a portion of the left side wall of the cave somehow was open and was leading into a passage way. Curiosity took the better of her as she started swimming in full speed towards the opening.

After swimming for about fifteen minutes, she found herself back on the shore. "What a lovely dive!" she thought. She sat down as swimming for such a long time had made her tired. But all of a sudden, she felt like something was wrong. It was too silent. She turned around for the first time since she came back to shore. What she saw didn't make any sense. If what she was seeing was real, then she seemed to be on a large island. There was nothing but a large forest. There was no trace of anything living other than plants.

Reya was scared, she didn't know what to do. She started to run, but not into the forest but around it. She followed the coastline as she ran. She didn't understand why she started to run but it felt right. After a long time, she stopped running. She was exhausted and couldn't run any longer. She sat near the coast, trying to think about what just happened. But she couldn't she was too tired, that's when she passed out from sheer exhaustion. But as she hit the ground, she felt a sea wave reach her legs. "Oh, no!", she thought. She has sat down too close to the ground.

When she woke up, she didn't know what to expect. She should have died as she didn't put on her mask. But to her surprise, she was back in the cave. Mask on. Immediately after realizing that, she started to swim out of the cave. After some time, she was at the coast. But it was different this time. The first thing she saw was the large building. She recognized them immediately. "I'm back," she thought as she walked back. She sat down on the beach and scanned the buildings. That's when she realised that something was wrong…again. There was a building that was not supposed to be there.

She had seen that building before. But it had been demolished 10 years ago. She started to freak out. Thinking why this was happening to her, she asked someone the year. That person looked at her like she had gone mad. She was thinking about that too. They answered. It was ten years before it was supposed to be. She started to run towards the sea and started to swim as soon as she could. She easily found the cave, like it wanted her to find it. She was about to swim through the tunnel again but something held her back. She turned and looked at the statue again, then at the carvings. They suddenly started to move but only a little and started to make sense. Then somehow she realised what was wrong. She turned to her right and placed her hand on a carving on the cave's wall. As another tunnel revealed itself, she wasn't surprised. She continued swimming.

After the tunnel ended, she reached the shore in five minutes. She felt like she would explode with happiness as her friends were there waiting for her.

She removed her mask and was about to say something when Maya said "Are you okay?", You were in the water for ten extra minutes." "Really?" Reya asked. Then she thought, "Only ten minutes?"

"Okay, let's go and change I'm feeling really cold…. and hungry.", said Leo (her friend). But Reya was lost in her thoughts. " Hey Reya, you ok?" he asked. "Ya, I'm fine," she said. "Then, let's go". Everyone nodded in agreement. "Fine, let's go," she said.

But one thing was in her mind . "Which God was the one in the cave and was it all real?" Then she stopped walking and took out her camera. All the pictures were there.

So it was reality. Curiosity took over her again as she thought, "And how many more of them she would have found."

Secrets are something,
That shouldn't be kept,
If you cling on to them,
Certainly you will be swept.
Secrets lead to lies,
No one deserves being deceived,
Devastation approaches,
When faced with truth.
One secret, will lead to another,
Untrustworthiness will be the case,
Secrets are monsters,
For truth they leave no place.
Secrets are something,
That shouldn't be kept,

My Life as a River

Running down a mountain slope, my life begins as a stream,

Fed by melting snow, ice and rain, I look pretty as a dream.

I babble, burble, gurgle, splatter and ripple as I move,

I glimmer, gleam and glisten in a way all will approve.

A natural, flowing waterbody; sometimes wide, sometimes narrow,

I flow towards a sea or an ocean; sometimes fast, sometimes slow.

In me, snails, clams, mussels, slugs and moss you will find,

Fishes, turtles, crocodiles, newts, snakes—all one of a kind!

Sand, pebbles, silt, boulders and gravel surround me,

For those who swim and boat on me, I don't charge a fee!

Families and friends love to have picnics on my banks,

To those who keep me clean, I give my whole-hearted thanks!

Happiness is travelling

After years of being locked in at home, we had an opportunity to travel to Singapore. The trip was just amazing! We boarded the flight from Chennai at the commencement of my winter vacation. It was a wonderful journey through Air India. We stayed at Hotel Boss which was in the heart of the city. The roads were so clean and wide which at first impressed me.

On the first day of our stay, we visited the Art Science Museum where we discovered many exciting things. I had an opportunity to draw and scan to see my artwork floating on the wall. We learnt about the red planet, Mars. We then visited the Sky Tower which is the major attraction from where the ocean, roads and vehicles looked tiny.

There was a Viking dome where we saw statues, Gingerbread houses, and Vikings with weapons having a feast. It was beautifully decorated for Christmas. We visited the Cloud Dome (Avatar theme) which gave me the feel of a rain forest. It was so magical with statues of Navis, magic caves, and a huge robotic dinosaur. The waterfalls were eye catching.

The Cruise was enjoyable and pleasant where we made few friends too. The breeze was soothing. We were able to see the national emblem of Singapore, the Merlion.

Our trip to Sentosa Island is an unforgettable one. The cable car ride was so thrilling. We visited Madam Tussauds and Adventure Cove Water Park and VivoCity. The S.E.A Aquarium was so interesting. I saw dolphins and sharks at a close distance. At Universal studios, I enjoyed all the rides. In fact, I took the mummy ride twice. We had an opportunity to understand the movie effects. The water world show was simply superb. I loved the actors there. On the last day, we had visited the zoo. The unforgettable show was that of the sea lion's named Bumba .

Thanks to the almighty for blessing me with such a wonderful trip. I wish to go there again.

The Genius Scientist

There once was a scientist named Aaron,

Who lived on tough distilled Boron;

But couldn't find a solution

To his chemical dilution,

That his seniors called him a moron!

To prove himself, he proceeded with a strenuous toil,

Also started burning the midnight oil;

With his determination firm

Ended up killing a powerful germ,

And now he's become a paragon who rose like a coil!

8 Kilometres

This is the distance from my home to my school. My story starts on a Tuesday morning, day of my PTM. The PTM was at 9am, so my mother and I planned on leaving by 8am. My mother booked the cab, and we waited…and waited…and waited. But alas! we realized that the cab was not coming. So, we decided to take a bus. OMG!!! The experience was an unforgettable one. The bus arrived soon enough, but it was overly crowded. Somehow, we managed to board it, took the tickets, which I have kept as memoirs. Needless to say, no seats were available. Thus, started our rickety ride. We were being thrown left and right- thanks to the potholes and ditches on the road. Suddenly I realized that the bus had taken a turn in the opposite direction. We somehow managed to alight from the bus. The next section of our journey began. The auto ride was a fun and exciting experience. It whizzed past some bigger vehicles, as the wind blew through my hair. In no time, we reached my school in time for the PTM. All said and done, it was a good 8 km journey experience, with all the mixed emotions of fun, fear and excitement.

My first pet

I always wanted a pet, and my wish came true on my eleventh birthday. I got a gift from my family friend and it was a Siamese Fighter Fish!!! I was over the moon with joy. The fish was purple and dark blue in colour, and was very small; even smaller than my little finger.

I like football and I have been playing football since the age of six. Pele, the great footballer had passed away a few days before my birthday and I was very sad at his demise. In memory of him, I named my fish, Pele. We decided to celebrate Pele's birthday on the same day as mine since I got it on my birthday.

Pele is extremely enthusiastic and swims vigorously in his bowl. He also seems lonely as he is alone in his bowl the whole time. But we cannot get another fish to give him company. Siamese Fighter Fishes are very territorial in nature and when they encounter another one of their kind, they fight till death. When these fishes live in rivers, they claim one mile of the river to themselves and do not share that territory with anyone else. Even though they are small, they are very aggressive. This shows that size does not matter to show one's courage.

Our helper Mampi Didi washes Pele and his bowl every Sunday. Pele eats three times a day and when we go out of station, I give Pele to my family friend for feeding and safe keeping. Pele came to us in a plastic bottle full of water with a couple of holes in the lid. As he grew older and bigger, our family friend gave a nice bigger glass bowl for him, so that he gets more space to swim. One of my other friends gave me a small bag of fish food for Pele and it is still not over after almost a year. The grains of the fish food are very small but a couple of them are enough for Pele for every meal.

I never thought that I will get a pet ever till Pele came to my life. It was one of my best birthdays. I will cherish that moment for my entire life. Pele will turn one year old in a couple of days, when I turn 12. I ardently wish that I and Pele grow big together in the coming years.

A Magnificent Day

It all started on Saturday, May 5th, 2018 and I was around six at the time, when I went to a watch a movie named "Guptodoner Sondhane" at the PVR in Kolkata. During the interval of the movie at around, 7:35 pm, a few of the cast members came to visit. They greeted us and thanked everyone for coming to watch the movie. It was thrilling to see the lead actor and actress of the movie. I was just standing near our seats and watching the lead actor Abir Chatterjee, who played the role of Subarna Sen in the movie, taking pictures with people. My mother noticed that the lead actress Ishaa Saha, who played the role of Jhinuk in the movie, was waving at me and was calling me to take a picture. My mother asked me to go to them and so I did. We took a few pictures and then Abir Sir said "We hope you enjoy watching the rest of the show" and "Thank you". They had also mentioned that they had to leave as they need to go to the other theatres.

During the rest of the day, I was thinking in my mind, "WOW! How am I so lucky to be called by the actors of the movie that I was just watching, for a picture, although I was standing so far from them?" It was the best day of my life and honestly, I couldn't be any happier. I think this is also a great time to mention that one of my school friends from DPS Megacity was also there to watch the same movie and I met him before the movie started. When the actors had called me to take photos, I thought "My friend must be a little jealous but I hope he isn't." So, at school the next day, I went to him and asked, whether he felt bad about it as he just left the theatre without greeting me goodbye and he said, "No, I am actually very happy for you. Congratulations on being the lucky one to be asked for a picture." I was really happy that he wasn't jealous or sad about it.

I will never forget that day as it was probably one of the most cherished moments of my life.

"Time to Think"

Far away in an unknown forest, a monkey named Bholu used to stay on top of a tree. He was thin and could jump from one tree to the other very swiftly. He was known to be the fastest monkey in the monkey

circle. He used to gather fruits throughout the day and store it on the top of the tree where he lived.

One day, when Bholu was about to go out for collecting fruits, the messenger of the animal kingdom, the Eagle appeared in the sky and was hovering around. The Eagle came down and sat on the top of the Eucalyptus tree. Taking out his spectacles under his wings, he put it on his beak. He opened the roll of paper which he was holding in his claw and started reading. With an anxious voice, the eagle said, "Dear friends, I have a declaration to make. Lion, the king of the jungle, has imposed a lockdown for the next two years with an immediate effect. A deadly new virus has broken out. The king has asked everyone to maintain social distancing and remain safe".

Bholu became extremely happy. He thought, "This is the best time to eat food and enjoy life by taking rest. This is the time for enjoyment". The days went by. The weeks went by. The months went by. Finally, after a period of two years, the lockdown came to an end. For the first time in two years, Bholu came out of his house on the top of the tree. The sun was peeping from the swinging leaves of the Eucalyptus

tree. The winter had set in and the colour of the leaves had started turning brown. To his utter surprise, Bholu found that the birds were singing more beautifully than ever before. The peacocks were dancing excellently more than ever before. He asked the birds in an inquisitive voice, "How are you singing so beautifully?". The birds replied, "We practised singing at home for the last two years". He asked the peacocks, "How are you dancing so excellently?". The peacocks replied, "We practised at home for the last two years". Every animal in the animal kingdom has become a better version of themselves by practising something for the last two years.

He looked at himself. He couldn't see his feet. His grown-up belly was obstructing the vision of his feet. He became fat and bulky only by eating food and taking rest. With his firm hand, he held a branch of the tree to jump. The branch broke down due to his heavy weight. He fell on the ground with a thudding sound. Writhing in agony, Bholu looked up. The sun has gone up over the Eucalyptus tree and the sun rays have fallen on his face. The rustling sound of the leaves was reminding him, "Why, why, why didn't you utilize your time well?". Suddenly, he found that the birds were chirping and were flying away. The peacocks ran away inside the dense forest. The hunters came into the forest. Bholu tried to jump but he couldn't. He tried to walk but he couldn't. He had become extremely obese. He lamented, "Why, why, why didn't I utilize the time well?". He started crawling but was not able to move at all. He heard some noise behind the bushes. It looked like someone was hiding behind the bushes. All of a sudden, he saw an arrow coming towards him piercing through the bushes. For the first time, he shouted at himself, "Why, why, why didn't I utilize my time? Why didn't I utilize my ……"

THE GHOST IN SAINT PETER'S CHURCH

Anna and her classmates were going to Saint Peter's church in Abingdon for a school excursion. They were to stay at the church's school for a week –

"Hey Anna," said Miss Jules, Anna's class teacher as she and her mom came to the platform of the London train station.

"Hello Miss Jules," Anna replied. "This is my mother."

Anna's mother, Emily introduced herself to Miss Jules. While Miss Jules and her mother discussed about the trip, Anna went to meet her friends Sarah and Jack. They both were twins and were very athletic. They had come with their dad and were looking around for Miss Jules when they spotted Anna.

"Hey Anna," Sarah greeted her enthusiastically.

"Hi, who are you looking for?" Anna asked as she had seen them trying to spot Miss Jules.

"We are looking for Miss Jules, have you got an idea where she may be?" Jack asked.

"Yah! My mom is talking to her over there," She replied, pointing to where her mom was.

Muttering a quick thank you, Jack hurried off to find his father. Meanwhile, the station master announced that the train they were supposed to board would arrive shortly within 2-3 minutes. Miss Jules informed Sir Gabriel, their headmaster that everyone except Fiona had arrived as Fiona was sick and could not attend it. Soon, they bid goodbye to their parents and boarded the train. Anna sat beside Sarah. In front of them Jack and their other friend, Michael were sitting. Michael reached into his bag and pulled out a chess board.

"Anyone, wants to play chess?" he asked.

They happily agreed as they had nothing else to do. Sarah and Anna were a team and their opponents were Jack and Michael. After a long time, they got checkmated by the boys. After their game was over, the driver announced that they were about to reach in a minute. Anna looked out of the window and saw the outline of a church. She pointed it out to the others and exclaimed, "It looks beautiful!"

A little later, the train came to a stop at the church's railway station. The students got out, escorted by Miss Jules and Sir Gabriel. The girls had rooms on the left wing of the school while the boys had rooms on the right wing. The girls had to choose their partners as each room had two beds. Sarah asked Anna to be with her. She happily agreed as Sarah was her closest friend. After keeping their stuff in their rooms, Miss Jules and Sir Gabriel gave them a tour of the church. The garden was at the front of the church, beside the garden was a park and the washrooms were located near the staircase. They were staying in the second floor. The school was a three- storey high building. They were restricted to go to the third floor. Later that evening, after having their snacks, Jack and Michael approached the girls.

"Do you want to check out what's in the third floor?" asked Jack with a sly smile.

"Sure," replied Sarah and Michael.

Anna was a little unsure. They were restricted to go to the third floor. What if something bad was up there? Or what if they got caught? How on Earth could they explain what they were doing there to Miss Jules and Sir Gabriel? Finally, she agreed though she was still unsure. Their plan was that at 11 'o' clock when the teachers would go to sleep, they would come out of their rooms and go upstairs. If they were to get caught, they would explain that they had come looking for the washroom but had lost their way and walked upstairs.

Soon night fell and the students got ready to sleep. Just as the clock hit 10:45pm, Sarah woke Anna up. They waited for it to hit 11. When it did, they waited for another 15 minutes, then they headed out. They walked to the staircase where they found the boys waiting for them.

"The way is blocked with tables," Michael whispered to the girls.

"Oh, no! How do we get in then?" Sarah asked.

"Shhh.! That is too loud," Jack whispered furiously.

"Sorry," she whispered back.

"Find for a way to go upstairs," Michael whispered softly, to them.

They started looking for a way, suddenly Sarah whispered excitedly, "Hey, look I have found a gap! Maybe, we can fit in."

The gap was not that big but with a little push they could fit in. Michael went first as he was the thinnest of them. He gripped the table and by pressing his body against the wall he got through. Jack and Sarah followed suit. Now, only Anna was left. Hesitantly, she followed. Quickly and quietly, they climbed the stairs. When they reached the third floor, all the light was gone and the floor was pitch dark. Thankfully, each of them had got a flashlight with them. Turning their flashlights on, they moved forward. There was nothing interesting to see and they soon got bored. A little forward they saw an open classroom. Excited on seeing the first open room, they walked in. The classroom was huge with a teacher's desk at the front and a thirty or so benches and tables for students at the back. As they walked in, the door suddenly slammed shut. Jack thought it was Sarah and said, "Sarah, why are you so loud and what are you closing the door for?"

Meanwhile Sarah thinking it was Jack who closed it said, "I didn't close the door, wasn't it you?"

"Who closed the door?" Michael asked silently.

"It wasn't me", came the reply from the three.

"Oh, no!" Jack said rushing for the door while Michael laughed.

Seeing their confused faces, Michael said, "It was me."

"Don't you dare do that again", Anna warned.

"I won't."

As they exited the classroom, their flashlights went off.

"What! Michael" Jack exclaimed.

"T-that was not me! I cannot do that."

An eerie light started to glow at a distance. The doors of all the classrooms swung open. A hollow voice filled the room. It said, "You should have stayed where you were, instead, you came over here. Now, you will not leave, until you meet me."

The gang was scared. They wondered if it was a ghost or somebody else. But they knew it could not be any of their other classmates or teachers as none of them had the power to do what had just happened. Anna

vowed to never go somewhere restricted ever again. Suddenly, a man dressed in pyjamas and a shirt appeared before them.

“Halo! I am Bob.”

“A-are you a gh-ghost?” Michael asked, stammering.

“Yes, Michael. Indeed I am.”
“How do you know my name?”

“Well ghosts do know stuff.”

The gang’s fear was slowly fading away as the ghost looked friendly and quite harmless.

“How did you become a ghost?”, Sarah asked.

“Well, I do not really remember. But it was maybe because this other man, Martin or something killed me when I was sleeping.”

“Aren’t you sad?” Anna asked.

“Not really, ghosts don’t have emotions.”

“How old are you?” Jack asked, scared of the

answer.

“526 years,”

“Oh my god!” Anna exclaimed.

“That is young for a ghost actually.”

They continued talking to Bob when the clock struck 12 o’ clock. It was midnight. The gang’s eyes drooped with sleep.

“You look sleepy. You better go get some sleep.” Bob said.

The gang agreed as they felt like they were going to fall asleep right there. After saying goodbye to Bob, they went back to their rooms. As Anna lay thinking in her bed, all she could think of was Bob, the friendly ghost.

The next morning as they were heading for breakfast, Sir Gabriel announced that the legacy of the school was that once it was a king’s palace. The king had a jester, Bob Tracer. He had started off as a poor man roaming the streets. One day, the king saw him and asked him several questions to which he gave the answer correctly or humorously. The king was impressed by him and so, appointed him as the court jester. Bob’s fame and popularity also brought him many enemies. One Frenchman, Louis Martin was one such enemy, who could go to any extent to get rid of his rival. So, one night as Bob was sleeping, he entered the jester’s room and killed him.

The gang was shocked to hear this. They wondered how someone could even think of harming the kind and friendly Bob.

“Should we go meet Bob, the ghost again?” Michael asked to which they agreed, readily.

The rest of the day went in a blur. When it was finally the time to go to bed, the students were overjoyed. Following the same plan they used the day before, they went to the third floor. After waiting for a while with no sign of Bob, they started to call him.

“Where are you?” They heard a voice reply.

“Where we met you yesterday.” Sarah said.

“Well, looks like you kids don’t listen.’’

Suddenly, Anna realized it was not Bob who was speaking, it was Sir Gabriel! Quickly, she whispered to the others. The four quickly switched off their flashlights and hid behind a table which was kept outside a classroom. Sir Gabriel came into view. Shocking the four, he laughed.

“You can come out now. I know where you are and I also know about your friend, Bob.”

“What! How?!” Jack and Sarah blurted out at the same time.

“Well, you children deserve to know. So, today morning I told you about the story of Bob. Now, did you wonder how I knew it, though?”

“No.” Anna admitted.

“This may be shocking for you. I am Daniel Martin’s descendant. He was awfully sorry for what he did and told his son this story so that he would not repeat his father’s mistake. In this way, it has finally, been passed down to me but as you know I don’t have any children, so, I’m telling you kids about it.”

For a while, no one said anything. This was surprising for them but it made sense. Sir Gabriel was French and no one had known the story but him. For the rest of the night until Sir Gabriel sent them to sleep, they asked questions about this to him. The rest of the week continued with the kids going every now and then to meet Bob.

The Magic Hat

There was once a man named Mr. Andrews Boat, who used to work in the Lego factory. He used to have a wife and two kids. His wife's name was Mrs. Kate Boat. His kids' names were Emma and Harry Boat. One day, Mr. Boat came back from work and said to his wife "Kate I am getting promoted". "Wow that is amazing", said Mrs. Boat. "Now you can go to The Lego's latest factory in Denmark". "Yes, I know", said Mr. Boat. "Aaaaaaaaah" said the kids suddenly "I saw a demon". "Oh, no! it is Kalito," said Mr. Boat. Kalito was a demon who had attacked the Boat family for years. Every member of the family had killed Kalito temporarily using a hat. But due to Kalito's strength he had been reborn for years. There was no permanent way to kill the demon. "Quick! let's run upstairs," said Mr. Boat. When they reached upstairs, they were shocked and found that the magic hat was destroyed. The magic hat had been with them for years. This hat was made by their ancestors. Mr. Boat had promised his mother that he will keep the hat safe. "No, it cannot be destroyed," he said. "Dad, it tried to kill us," said Harry. "I know how it feels to kill him and he comes back". "WE HAVE TO MAKE THE MAGIC HAT AGAIN" screamed Mr Boat. "SPIN THE NEEDLE KATE AND YOU KIDS GET READY TO KILL KALITO FOREVER," said Mr. Boat. That night was a very big night. By the morning, Mrs. Boat had made the hat and the kids were ready to fight Kalito. That night Kalito had come to the house. "Try and kill me but I will DESTROY YOU," said Kalito to the kids. Suddenly the kids said "ASUKA LAKA MATIKA WERA". Suddenly, Kalito told, " No, this is the feeling I never got when I temporarily die", when he saw the hat and the kids say those words. " OH, NO! I AM PERMANENTLY GOING TO DIE." Suddenly Kalito turned to fire. " Yes, we did it " said the kids. Everyone in the family rejoiced. Their enemy was gone. They had a huge party after Kalito was killed.

The Ten Laddus

Rajan was a hardworking woodcutter. His wife, Seema weaved baskets and sold them in shops. Both the husband and wife worked very hard for a living. One afternoon, while Rajan was working, he happened to meet his childhood friend, Tarun. It was after a very long time that the two friends had met. They had so much to catch up on and that's when Tarun invited him over for lunch. Rajan initially was a bit hesitant, as he had a lot more work to finish before the end of the day, but finally agreed to Tarun's invitation for lunch after a lot of compelling. After finishing their lunch, Pooja, Tarun's wife brought some Motichoor Laddu for dessert.

"What is this?" asked Rajan smilingly in amazement. "These are Motichoor Laddus. Haven't you had them before?" After all it's one of the most famous Indian desserts", said Tarun. "Please do take some," said Pooja to Rajan. As he took a bite, the delicious, soft laddu melted in his mouth. It was probably long since he had something sweet like this. "This is so good, so tasty", said Rajan licking his fingers taking the last morsel of laddu from his hand.

While relishing the laddu, Rajan thought of Seema. He really wanted her to taste the laddu as well. That is when Rajan thought of asking Tarun and Pooja for the ingredients to make the laddus.

"What are the ingredients to make this, and would you mind if I take one for Seema? " Rajan asked rather sheepishly. "Of course, you can, Rajan," replied Tarun. Pooja wrote down the ingredients on a piece of paper and handed it over to Rajan. "Thank you so much for these," said Rajan smilingly. He waved them goodbye and walked away with the piece of paper in one hand and a tiny pouch with the laddu in the other one. By the time he reached home it was quite late. Seema asked him about the reason why he was so late. Rajan then told Seema about his day with his friend, Tarun and his wife Pooja. He excitedly narrated the entire day's event to Seema. He told her how he unexpectedly met his friend and how he was invited over for lunch and of course about the moment he enjoyed the most, and that he was savouring the

most delicious laddu ever. Saying this he handed over the pouch with the laddu to Seema. She enjoyed the laddu as much as Rajan did. The two then went through the recipe together and decided that they would work hard to save enough money to buy all the ingredients needed to make the laddus. For the next few days, both Rajan and Seema worked very hard.

They finally had enough money to buy all the ingredients. The two then went home and started preparing the laddus from scratch. It took long for them to prepare the laddus but they thoroughly enjoyed the process. Finally, they had on their tiny table a small plate filled with ten laddus. The two glanced at each other and smiled at the very thought of relishing it together. The two enjoyed the laddus even more, especially because they felt that they could taste the sweetness of their hard work in the laddus.

Moral: Hard work pays off in the long run.

Venus Orbiter Mission

The Venus Orbiter Mission, unofficially known as Shukrayaan, is a planned Indian Space Research Organisation (ISRO) mission to study the surface and atmosphere of Venus. The three broad research areas of interest for this mission include surface/subsurface stratigraphy and re-surfacing processes; studying the atmospheric chemistry, dynamics and compositional variations, and studying solar irradiance and solar wind interaction with Venus' ionosphere. The mission may carry out research on Venus' active volcanic hotspots, lava flows and their patterns. Based on the success of Chandrayaan and the Mars Orbiter Mission, ISRO began studying the feasibility of interplanetary missions to Mars and Venus. A mission to Venus was first presented at a Tirupati space meet in 2012. ISRO was authorized to complete preliminary studies. From 2016 to 2017, ISRO collaborated with JAXA to study the Venus atmosphere using signals from the Akatsuki in a radio occultation experiment. ISRO and the French National Centre for Space Studies (CNES) held collaboration discussions in 2018, including the Venus mission and autonomous navigation and aero braking technologies. French astrophysicist, Jacques Blamont expressed interest to ISRO chairman Udupi Ramachandra Rao, to use balloons to help study the Venusian atmosphere. Similar to the Vega missions, these instrumented balloons could be deployed from an orbiter and take prolonged observations while floating in the planet's relatively mild upper atmosphere. ISRO agreed to consider the proposal to use a balloon probe carrying a 10 kilograms (22 lb) payload to study the Venusian atmosphere at a 55 kilometres (34 mi) altitude. As of November 2020, ISRO had shortlisted 20 international proposals that include collaboration with institutions from Russia, France, Sweden and Germany. In May 2022, ISRO chairman, S. Somanath stated that the mission is planned for launch in December 2024, with an alternate launch window in 2031.

The World Famous Ratha Yatra in PURI

The Puri Ratha Yatra, also known as the Festival of Chariots, is one of the most iconic and eagerly awaited Hindu festivals in India. Held annually in the town of Puri, Odisha, this grand celebration revolves around the procession of Lord Jagannath, along with his divine siblings Balabhadra and Subhadra, in elaborately decorated wooden chariots. This magnificent event typically takes place in the month of June or July, marking the return of Lord Jagannath to his aunt's place, the Gundicha Temple. The beginning of the wood work of the chariots starts on the day of Akshaya Tritiya festival. The wood used in the construction of the chariots for the Jagannath Rath Yatra is known as Phassi. The chariots, constructed new each year, are immense, towering structures, beautiful with vibrant colours, designs, and auspicious symbols. These chariots are named

Nandighosa (for Lord Jagannath), Taladhwaja (for Balabhadra), and Darpadalana (for Subhadra).

Devotees and pilgrims from all corners of India and abroad flock to Puri during this time, eagerly participating in the divine procession. The massive crowds, chanting of hymns, and the rhythmic beats of traditional drums create an electrifying atmosphere that is spiritually uplifting. The Puri Ratha Yatra symbolizes the Lord's willingness to meet and bless all his devotees, irrespective of their social status or background.

Before the start of pulling the chariots, the king of Odisha has to sweep the floor of all the three chariots with a golden broom. Pulling the chariots through the magnificent BADA DANDA (Big courtyard) is considered a great honour and an act of devotion. The lord has a Suna Besha (a golden look) on the last day of the festival. After the end of the nine days yatra, when lord Jagannath returns to the main temple, his wife Mata Lakshmi doesn't allow him inside because he did not take her to his aunt's house. Then lord Jagannath offers her hundred sweets to make Maa Laxmi happy. Beyond its religious significance, the festival also showcases the rich cultural heritage of Odisha, drawing tourists and enthusiasts from around the world.

In conclusion, the Puri Ratha Yatra is a grand celebration of faith, devotion, and culture. Although, I have not seen the Ratha Yatra, I have visited the temple four times, as I am from Odisha.

THE WAR

Beyond the mountain line the sunshine impressed me,

Glittering lakes contented me,

Never had I fought a war,

Missing my family sorrowed me.

Fought for my country,

Fought for my family.

With the toughest terrain to climb,

With no breaks and rest.

Guns and bombs all around me,

Firing the enemy so hard.

Saved my troops from being killed,

Threw bombs on the enemy bunkers.

Feared we would lose the war,

Slash, slash we fought the war.

Killed our enemies,

Who fled in bafflement.

Calm it was when it all ended,

Peacefully returned to my home in the end.

Proud to serve my nation,

Awarded by the president, the Vir chakra

Will serve my nation for many more years to come.

A Drive Through the Coastal Heaven of Karnataka

Planning a trip after a long time can be a refreshing and enjoyable experience. Just before the Christmas holidays, my parents planned a trip to the coastal region of Karnataka. We chose to travel to Udupi and Gokarna. We had booked the hotels within two days and then it was time to pack up and get ready for our journey!

On 21st December, we woke up at 5 a.m, got ready and packed our baggage into the car. At 5:30, we set out for our destination. The weather was pleasant, with clouds lining the sky and obscuring the harsh rays of the sun and a sweet cold breeze lingered across the road. Since it was early in the morning, there weren't many cars on the road. For a couple of hours, we went driving smoothly through the roads until we finally left Bangalore behind, in the dust.

Since we had been going for two hours, our stomachs began to growl, as soon as we left Bangalore. For a while, we continued our journey and finally, we came across a restaurant and decided to stop. We ate crispy dosas, satisfied our hunger and left for the roads again.

The roads were packed with scenic beauty and smallshops everywhere. We listened to music to energize ourselves. While I looked outside, I saw the nearby cars zooming across the roads. After some hours, the roads became a bit steeper and there were small hills on both sides. We were driving through the Western Ghats, the mountain chain which runs along the western coast of India. It was already afternoon when we reached the beach town, Udupi.

Our hotel in Udupi was comfortable and spacious. It was also accessible to the nearby roads leading to the many beaches of Udupi. We decided to have our lunch in the hotel and rest for an hour before venturing into the beach.

Our first destination was Kapu beach. It is a beautiful and well maintained beach. It had a lighthouse, which was built in 1901, under the British rule, making it around 122 years old!

We paid the fee for the lighthouse and started climbing steep stairs inside the monument. After climbing so many stairs, we realized it was worthwhile. The view was jaw-dropping. We could see the waves crashing into sharp rocks and soft white sand everywhere. A majestic shoreline dotted along the beach and white foam sprayed on to it. It looked marvellous, and since it was time for sunset, the sky became bright pink and orange. We took some pictures before it got dark and left as the tide increased.

We headed back to our hotel, had a sumptuous dinner, and hit the bed after a long day. The next morning, we woke up excited and refreshed. The day prior, my parents had planned to go to Malpe Beach and visit St. Mary's Island, which can be accessed using a motorboat. We bought the ticket and stood in a queue for our motorboat ride. There were many other people who were also visiting the island.

The boat started. It rocked about at first but then it became fine again. I looked behind as we left the beach and journeyed towards the island ahead. After a while, we reached the island and got down. We had one hour to explore the entire island. There were many hexagonal-shaped structures of rock surrounding the island from many directions, which is a unique and special addition to being a beautiful

island and it is what made it special. The dark blue waters crashed onto the shore from every direction. We threw water at each other for fun, took photos and enjoyed the scenic beauty and cold water. We then went to the other side of the island. Then I collected small seashells and took pictures. Even though it was beautiful, there was something sad about it. The littering caused by people made it dirty, which was saddening, since other than that, there was no other complaint about it. After an hour, the boat picked us and we went back to the shore, bidding goodbye to the small island.

We returned from the beach and went to a renowned restaurant in the area, Thimmappa Fish Hotel, for our lunch. This restaurant is famous for wide varieties of fish and seafood items. The food was amazing. After lunch, we went back to our hotel and took a break. In the evening, we headed to Delta Beach to see the mesmerizing beauty of sunset.

On the way to Delta-beach, there were homestays as well as house boats. The beach was really nice, and the sky looked vibrant with all the shades of pink and orange with the big orange sun slowly going below the horizon. We took some pictures and sat there, enjoying the breeze. After that, it got dark, and we left to go back to our hotel. But before that we went to Shri Krishna Temple in Udupi. However, it was too crowded so, we couldn't get in. After that we returned. We finished dinner in our hotel and called it a day.

Next day morning, we left Udupi and headed to Gokarna via Murudeshwar. On the way, we embarked on a completely different adventure: kayaking in the Mangrove Forest.

We drove down a road and arrived at the backwaters of a certain beach and rented a kayak to paddle through the mangrove forest in the back waters. My dad and I were in one and my mom was kayaking with a helper since she wanted to take pictures of us and couldn't do it alone.

We started paddling. After some time, I got used to it and could do it faster and smoother. The scene was beautiful. There were aquatic birds everywhere, many storks and kingfishers. The forest was shady and full of small islands with mangroves in every direction. We rowed for half an hour and were taking turns, if we got too tired. After that, we went back to the starting point and got down, exhausted.

We started our journey towards Murdeshwar Temple. After parking our car in the parking space, we stood in front of a large skyscraper with eighteen stories named the Raj Gopura. It was used for viewing the famous Shiva Statue which is 37m high and also for viewing the beach. We got the ticket, used the lift, and went up. We got down and looked through the windows, one on each side. The view from each was mesmerizing and we took many pictures of the Shiva statue as well. Then we went to the Bhukailasa Caves, which is in the temple itself. It represents a story of how Ganesha saved Shiva's Atma-linga from Ravana, who was going to take it to Lanka. After that, we left for the roads again.

After some hours, we finally reached the resort in Kumta, which is near Gokarna! The property has a private beach with small cottages. One of them was booked by us. The beach in front of our stay was Nirvana Beach. It was so clean! I found many more seashells and collected them. There were also starfishes! They were swimming on the shore, when we saw them. We enjoyed swimming and playing on the beach. We also played in the waves, and it was fun! The evening was spent inside the resort walking, swinging, chitchatting along with some good food. The weather was humid and hot during the daytime, but the night was pleasant. We decided to have dinner and call it a day when I nearly fell asleep.

Next morning, we set out at 9:30 to go and see Om Beach. It is a beach around which there are some rock formations, making it the shape of an Om (ॐ). It was really crowded and there were also many foreigners. My dad and I had a plan to go jet-skiing. We climbed onto the jet-ski and the person handling it started it. We went over the waves, went in circles, swirls and zigzags. At first, I must admit I felt like I was about to fall off, but I started liking it. It was fun. Then my mom decided to go jet- skiing and she had a lot of fun too. As the temperature was rising, we decided to get back to our resort after spending some time on the beach.

On the way back, we spotted a board which showed a road leading to a fort, the Mirjan Fort. We decided to visit that as well and turned to go to that road. Years had passed, yet the fort had been well-maintained and remained in fair condition. It was built in the 16th century, making it around 400-500 years old! We went inside and walked through the tunnel-arches, forming some kind of labyrinth. There was also a huge well in the complex that is now covered to prevent anyone from falling in. There were many tunnels leading down, may be used by soldiers as a hiding place or storage area. The fort seemed relevantly newer compared to other forts I have seen before, and it also looked more stable. It seemed to be built with a lot of care.

We took pictures of the views, the fort and left. We drove back to our resort, having lunch on the way. We went to the beach in the evening, sat on the sand, swam in the sea, and played some games. After one hour, we got tired and went back to our cottage to take a rest. Finally, our short time off came to an end which made me a little sad. We finished dinner early and went to bed to rest before our long ride back home.

We got up early in the morning and left. It was sunny but cool. We went through the forested roads, occasionally spotting small houses on the sides. We went over the Ghats that were more on this road since it was different from the road we used while coming. On the way, we stopped and had breakfast, a specialty of this region, Mangalore Buns. We left and then drove on. We went up hills, and some had small sanctuaries where particular species of animals and birds, unique to this area lived, which is why the hills were preserved with forests and plants. After some hours of journeying through the hills, we finally started going downhill. The roads eventually connected to local cities and towns. There were small buildings everywhere and better roads. The roads were gorgeous and filled with beautiful scenery. After a few hours, we stopped at a hotel and had lunch. We set out and around evening time we reached the outskirts of Bangalore. And as soon as we arrived, we were greeted with the traffic of Bengaluru! From there, we took 45 minutes more and finally reached home. I really loved the trip, and it was also exciting. I really miss the fun now. But it was time to go back to normal life. I hope I can visit it again, some other time.

BHOPAL GAS TRAGEDY

Once a tragic event known as the Bhopal Gas Tragedy occurred in the city of Bhopal. It happened on the night of December 2-3, 1984. There was a factory called Union Carbide India Limited, and it made pesticides.

One night, the inexperienced workers did something wrong in the factory. A toxic gas called Methyl Isocyanate was released into the air, causing people to lose their lives. Thousands of people were affected during this tragedy.

The gas spread quickly, reaching many areas in the city. People woke up in the middle of the night, struggling to breathe, and were coughing hard. The gas killed some immediately, while others died within a few hours.

People rushed to hospitals, filled with tons of people needing treatment. The exact number of deaths is still not known, but it is estimated that thousands of people lost their lives due to Methyl Isocyanate.

After the gas dissipated, people revolted, as they wanted justice. It also raised awareness about the need for proper safety measures in factories to prevent such events in the future.

In conclusion, the Bhopal Gas Tragedy was a sad event that affected many people's lives. It is necessary to follow certain precautions to prevent such disasters from happening again. –

A Memoir of Nepal

Nepal – the land of Everest and Buddha

Nepal's main attraction for tourists is the Mount Everest. As many people know, it is the tallest mountain in the world. Apart from Mount Everest, people also visit many temples of Shiva because his abode is in the Himalayas. After all, Shiva's actual abode lies in the Kailash Mountain in Tibet but the major part of the Himalayas lies in Nepal. Gautam Buddha's birth place is in Nepal. As per some of the puranas, Buddha is the 9th avatar of Lord Vishnu.

The Memoir

It was a gloomy morning. As I was having my breakfast, the telephone rang. To my surprise, it was Babi (as I affectionately call my uncle from Delhi). As we haven't spoken for a while, I was curious to know what it was all about! He asked me to pack my bags as I was going to Nepal with his family (Babi, Jethi, Didi & Bubloo). In a flash, the gloomy morning turned into a colourful day.

I asked my parents about this and they were surprised. They talked to my uncle and gladly allowed me to go to Nepal. So, I waited for the day, 21st December, to come quickly but the days were like never ending. Finally, when the day came, I first went to Delhi at my uncle's place and enjoyed a couple of days there with my brother (Bubloo) and Didi.

On 25th December morning, fog enveloped around and I set out for Nepal. My flight was from the Indira Gandhi International Airport. It was my first time out of the country. As I was watching out of my window seat, I laid my eyes on the Himalayan range. It was absolutely majestic!

(Himalayan range: photo taken from the aircraft)

After I stepped out of the aeroplane, there was a cold breeze that hit my neck and I felt refreshed! My uncle went to the money exchange counter in the Tribhuvan airport in Kathmandu. He got some Nepali notes which was needed in the trip as 500 note is illegal in Nepal. The most landmark moment of my life till now was the immigration stamp on my passport. After the tiring journey, we rested in the hotel. After the sumptuous lunch, we went to our rooms and stayed in that hotel for that day.

The next day after having an energetic breakfast, we headed out for Lalitpur. We first had our pit stop at Darbar Square. There was a statue of the king Yoga Narendra Malla and a cobra hanging over the king's head. On top of the cobra, there was a bird made of brass. I was astonished by the statue and asked the tourist guide to educate me about it. The guide said that according to the legend, the king may still return in his palace as long as the bird remains. Accordingly, a door and a window of the palace are always kept open. When the bird flies off, the elephants in front of the Vishwanath temple will stroll over the Manga Hiti for a drink. That was fascinating to me!

After that enriching experience, I went to have some snacks. While ordering the food, I remembered the famous saying “Travel broadens the mind and food loosens the bowel”. So, I was very careful on ordering the food! After having the snacks, we went to see one of the temples of Lalitpur. It was the temple of goddess Kali. I saw a garland hung on the entrance door. I tried to identify the material used to make the garlands but eventually I couldn’t, so I asked the guide about the material used to build the necklace. The guide said that this particular necklace was made of a water buffalo’s intestine and he also told that he would explain some facts about the temple. I asked him to go on with full of enthusiasm. The guide told me that in every Kali Puja five animals were killed. These five animals were goat, buffalo, duck, chicken and sheep. These animals were killed because many good kings who have done a sin not on purpose are given punishment by the gods. The punishment was to become an animal in the next life. So, the animals were killed so that those kings can be a human sooner.

(Me with my Didi & brother (Bubloo) at the Darbar Square)

After that, we went to the Boudhanath Stupa. Boudhanath Stupa also known as Khasti Chaitya is the largest Stupa in Nepal. After Kāśyapa Buddha's demise, an old woman, a poultry keeper, Ma-jha-zi-ma (Tibetan mother bird caretaker) with her four sons, lay this great sage's remains at the spot over which the great mound now stands, the latter having been built by the woman herself. Before starting on the work of construction, she petitioned the King of that time to grant her land the size of a buffalo skin. Thinking it would be small, the king gave permission for land and to build her stupa. However, the poultry woman carefully cut the skin in a long strip, like a rope and used it to circumscribe a large area. By the time that, as a result of great sacrifices on the part of the woman and her four sons, the groundwork of the structure had been finished, those who saw it were astonished at the greatness of the scale at which it was undertaken. The high officials and wealthy people of the country were ashamed. They thought that if such a poor old woman was allowed to complete building such a stupendous tower, they themselves would have to dedicate a temple as great as a mountain, and so they decided to ask the King to disallow further progress of the work. When the King was approached on the matter, his Majesty replied: "I have finished giving the order to the woman to proceed with the work. Kings must not eat their words, and I cannot undo my orders now" which is known as (Kha-Shor) thus, the name came as Jya Rung Kha Shor. So, the stupa was allowed to be finished, and hence its unique name, "Jya Rung Kha Shor Chorten Chenpo."

(Boudhanath Stupa)

After having a look in the Boudhanath Stupa, we went to have lunch. There was a restaurant right in front of the Boudhanath Stupa. So, we decided to have our lunch there. After a delightful lunch, we headed out to the enormous Shiva temple, the Pashupatinath temple. One legend says that Shiva

and Parvati took the form of antelopes in the forest on the Bagmati river's east bank. The gods later caught up with him and grabbed him by one of his horns, forcing him to resume his divine form. The broken horn was worshipped as a linga, but over time it was buried and lost. Centuries later, a herdsman found one of his cows showering the earth with milk, and after digging at the site, he discovered the divine linga of Pashupatinath. It is one metre high and has faces in four directions, which represent various aspects of Shiva; Sadyojata (also known as Barun), Vamadeva (also known as Ardhanareshwara), Tatpurusha, Aghora, and Ishana (imaginative). The man in front of me tried to touch the linga but the guard slapped on his hand and took him away. I asked Babi why we can't touch the linga and he said that there is a myth that the one who touches the linga will turn into gold.

After the tiring day, we went to the hotel and rested. The next day we took a flight to Pokhara. As always, I was sitting on the window seat and saying goodbye to Kathmandu. When we were landing in Pokhara, I saw the glorious Annapurna range. The range was covered with snow. After we landed, we started sightseeing. First, we went to the Bindhyabasini temple. The main temple is devoted to the goddess Bindhyabasini, a Bhagawati who is the incarnation of Kali. There are smaller temples of the goddess Saraswati, Shiva and Hanuman. The king of Kaski, Siddhi Narayan Shah or the king of Parbat Khadgaman Malla saw a dream about establishing a temple for the goddess, Bindhyabasini. He had his men go to Bindyachal Parbat (currently in Uttar Pradesh, India) to bring back a statue of the goddess. The men when returning set up camp for a night at the current location of the temple. When they woke up the next morning to resume their journey, they found that they couldn't lift the statue from the ground. When informed about the situation, the king directed his people to establish the temple, hence the beginning of Bindhyabasini Temple.

(Me at the Bindhyabasini temple)

After that, we had lunch in a restaurant. Then we went to Gupteshwor Mahadev Cave attraction. Gupteshwor Mahadev Cave is a cave located in Pokhara -17, Chhorepatan, Kaski district, opposite to Devi's fall, the water from Devi's falls passes through this cave. Gupteshwor Mahadev cave is one of the major attractions of Pokhara. After that, we went to see the amazing Devi's Fall. The water forms a tunnel after reaching the bottom. This tunnel is approximately 500 feet (150 m) long and runs 100 feet (30 m) below ground level. On 31st July 1961, a Swiss couple went swimming but the woman drowned in a pit because of the overflow. Her body was recovered three days later in river Phusre with great effort. After the incident, people started to visit the site calling it David's fall. However, nowadays it is also called Devi's fall. It's Nepali name is Patale Chango, whose literal meaning is Paatal Ko Chango which means "Underworld's Waterfall". This is one of the most visited places in Nepal.

After exiting the Devi's Fall, we saw the Phewa lake near Devi's Fall. Phewa Lake, Phewa Tal or Fewa Lake is a freshwater lake in Nepal formerly called Baidam Tal located in the south of the Pokhara valley that includes Pokhara city and parts of Sarangkot and Kaskikot. It is the second largest lake in Nepal and the largest in Gandaki Province after the Rara Lake in comparison to Nepal's water bodies. It is the most popular and most visited lake in Nepal. Tal Barahi Temple, located at the centre of Phewa Lake, is the most

important religious monument of Pokhara. This two-storied pagoda is believed to be dedicated to one of the Hindu gods known as Vishnu.

After that, we went to the hotel and spend our last few hours there. The next morning, I caught my flight and came back to India and my exceptional journey came to an end.

I thoroughly enjoyed my travel. However, due to time constraints, I couldn't visit the Mount Everest Base camp. I will definitely revisit this wonderful land and witness the grand peak and who knows also climb it. 😊

The "Where" and "Why" teacher!

In the present time, in a school named D.P.S. East, there is a teacher.
She is the coordinator of 5th grade and class 5B's English teacher. Her name is Mrs. Priti Mam. She is very funny and kind. She was called "The Where and Why Ma'am" by me because she always asked many different questions to us. I once told Ma'am that the story "Why Why Girl" is kind of related to her. That is the reason I called her the same.

I really admire my teacher for these questions, which help all of us learn fast and understand things well. I actually think all my teachers at DPS are "the where and why teachers," as they are asking us questions, and answering our questions patiently helps us learn so easily.
I respect all my DPS teachers for their help and support.
Thank you, dear teachers!

My Trip to Gujrat

On my last Christmas vacation, I visited Gujarat with my family. We first went to Ahmedabad where my aunt and uncle live. The next day, we headed off to Somnath in a 10-seater traveler. It took a long time to reach, and we managed to have some snacks on the way.

We checked in at the VITS Hotel for one night. In the evening, we visited the Somnath temple which is one of the twelve Jyotirlingas of India. There were long queues, and we finally managed to have our darshan.
The next day, we started for Dwarka. There, we checked in at the Grand Ladukara Hotel for two nights. The hotel was very close to the Dwarka temple. When we visited the Dwarkadhish temple, which is one of the four Dhams of India, was very, very crowded. But we managed to have our darshan of Vishnu, Shiva, Anirudha, etc.

The next day, we went to Beyt Dwarka, which is an island in the Arabian Sea. We went there by boat and there were a lot of seagulls that were following us in the boat. While returning, we visited the last temple of our trip. It was the Nageshwar temple, which is again one of the twelve Jyotirlingas of India. It was the best of all of the trips. It was crowded, and there was a long queue going zig-zag, but it was not tiring at all. We had our darshan, took some rest, and I had some Prasadam. The next morning, we headed off to Bhuj. Again, it took a long time to reach our hotel. The Click. We didn't have any sightseeing there, but we stayed there just to spend the night.

The next day, we went to Rann of Kutch and checked in at the tent city. The hotel was created as a collection of tents, and the place was HUGE!!! This is recognised by the UNWTO, an UN specialised agency. In tent city, we were moving from one point to another by battery-powered vehicle. There were many handicraft stalls where we bought a few things. In the evening, we went to Rann of Kutch to view the sunset. We went there by camel cart. The entire area was desert, but in place of sand, there was salt everywhere. That is why it is also known as white Rann. There were many activities there. Tent City is part of Rann Utsav, which is celebrated from November to February every year.

The next day, we headed back to Ahmedabad, where we went to a mall to spend some family time before returning home. We had a lot of fun in Gujarat.

Elephanta Cave Tour

The best tour in Mumbai was the Elephanta Cave Tour. We booked the ticket outside the gate of India for a ferry ride to Elephanta Cave. We had to go inside the Gate of India for the ferry or steamer ride. The thing that I hated was in front of us—a long line. After about 30 minutes we were able to board the boat. We saw many big ships during the ferry ride in the Arabian Sea. We fed some of the birds that were flying with the boat.

After a long boat ride, we reached Elephanta Island. There, we hired a guide who told us everything. There were stone carvings that were built by an emperor. It was destroyed by the Portuguese around 1530. The carvings in the temple were dedicated to Lord Shiva. It was a monolithic structure.

On our way back, we fed more birds. The lighting was very beautiful that day in Mumbai, as it was around New Year.

The Secret Path

Once, there was a secret path that had a beautiful garden. One day, few girls were playing near the secret path with a ball. The ball went over the compound, and one of the girls in the group went inside the secret path to get the ball and saw a beautiful garden.

She saw golden fruits, delicious-looking mangoes, and apples and many other fruits. She took the ball and went inside the secret path again. Then she told her friends what she saw—the beautiful garden and the path. They were also fascinated by hearing it. They told everyone they met on the road. They, too, were happy hearing this. Then a few people went to the king and told him about it. He got furious. He called all the people of the kingdom to the palace and told them that they should find the person who found the secret path. He kept the path a secret, even if he never saw it, but he knew it. He never told anyone about it, as the people would get greedy.

One man found the girl who had found the secret path and sent her to the palace. The king asked her when she came to the chamber, “Why did you go to the secret path and tell it to everyone?” in an angry voice, and stamped his foot. She answered, “My sire, if anyone visits the secret path, they will feel amazed. You can go and check if you want, sire. If people or if you are not amazed, then I am ready to take the punishment”, in a kind, innocent voice.The king went to the secret path and the garden and felt amazed. Lastly, the man was rewarded, but the girl was not punished. In fact, she was rewarded because of her kind words.

What Are Dreams?

Dreams are things that you have thought about since childhood. When you are a child, you think of anything like becoming a doctor, scientist, IAS officer, engineer, NBA player, etc. These are all part of your subconscious desires.

But it becomes challenging when it comes to working hard to achieve it.

For example, you want to become a cricket player, but you sit the whole day at home and play Roblox. Then, what's the point of dreaming about it? It would be best to start working on your dreams since you want to achieve them. Also, it would be impossible to

achieve any dream or goal if you did not have the determination and perseverance to do so. For instance, if you get out of science once, you can't say you will become a doctor or a scientist. You have to start working on it and continue until you achieve it. Working towards your dream becomes more challenging as you grow up. But as you know, "practice makes perfect." The more time you spend on it, the more practice you get. Dreams can sometimes be complicated as well.

You may get nightmares instead of goals or fear about things you are not good at. But you don't need to worry about it. If you keep working hard towards your dream, someday your hard work will be acknowledged with accomplishments.

How does a plane take off and fly?

With the help of its engines and wings! The engines of a plane are designed in such a way that it helps in moving forward at high speed. They produce a force called thrust, which gives the plane a horizontal movement. When the plane starts moving, the air flows rapidly over its wings. This throws the air towards the ground, generating an upward force called lift. The plane takes off, and the lift overcomes the plane's weight holding it in the sky.

Mini fact

In 1986, a plane called Voyager flew all around the world without having to land or refuel even once!

My Journey With Feluda

When I heard my parents praising a fictional character, Feluda, I became curious about who he was. So, I asked my mother about him, and thus, she got me a book, The Adventures of Feluda. That was when my journey through Feluda's adventures began. I felt like I was racing through the streets of Kathmandu, tracking people in Haridwar, and traversing the snowy regions of Darjeeling, boarding boats in Hong Kong, and so much more. The introduction of a character named Lal Mohan Ganguly happened on a train to Rajasthan. He was the funniest character. I love his saying- "Highly Suspicious". He was also well-known as the famous writer Jatayu in the book. The completion of the book left me with mixed feelings of sorrow and joy.

Fin Yellow

There was a little fellow.
His name was Fin Yellow.
He walked down the witch's lane.
People thought he was insane!
'Don't go; the witch is there.
She'll eat you up as if you're a hare'.
But he didn't listen, the little fellow.
Poor little Fin Yellow!
Fin Yellow went on walking.
With his feet in stockings.
But the witch saw him.
And I flew down on him!
Fin Yellow was very scared.
Those who saw him were scared.
But wisdom came to him.
The rage began to brim!
Fin said, 'I forgot that little lad;

He is very, very fat.
No problem, you can eat him,'
The witch agreed and imagined him!
They climbed up the magic chimney.
To which the witch referred to 'Chimbley.'
Poor fat Fin got stuck along.
And the witch pushed him along!
Fin Yellow took her to the Valley of Pots.
He stopped near a huge pot.
'Here is that little lad;
No one ate him, so he's sad!'
The witch became a bit greedy.
She thought this was so easy.
But when she went inside,
There was nobody inside!
Fin Yellow chuckled happily.
The plan had worked nicely.
Quickly, he shut the lid.
And I happily sealed the lid!

Pene Peters
Me, Pene Peters

"Let your mom meet defeat! I'm going to drink your and your mom's blood once I kill you and your feats!"
Pene's and William's mother battled a dangerous monster when she was young and defeated the monster. They know all about it. But when it escaped, Pene was young, it threatened the whole country, and decided to kill her family! Pene discovers that her new principal is the monster in disguise, and she sets off on a mission to stop the sinister plot. But will she be able to stop the dangers?
Join Pene as she sets out on an adventure to save Germany from the spooks of evil monster from killing her family.
Well, have fun!

Many years have passed since Mom retired from doing adventures, as she was about to give birth to me and my brother William. She won't do any more adventures. She says there are many stories about how she defeated her enemy, disguised as an evil teacher, at a very young age, going on mysterious journeys, and getting into trouble. The person (nicknamed Denser) is very strong, but nothing compared to mom.
"I believe Mom is bragging about defeating Denser so easily. I think it took her as much time as it took me, which was a lot. It's hard to believe, but everything I've heard is true and scary. I'm used to it now, so I wasn't scared anymore, until my brother and I faced the same situation our mother did when she was 19, but at a much younger age than her. You might have been eager to hear it, so I'm telling you now."

Today was our last day of exams. Of course, it happened to be the toughest subject for the ones who spent their days lazing around, eating chips and watching TV. While I found it easy, I couldn't help but notice the lazy ones cheat, and they got scolded. I was sure they would get a C grade in exams! We were happy when the exam was finished and the kids pranced around happily. When the children were enjoying themselves, I saw my brother glancing towards a pile of newspapers, as he saw something unusual, I guess. He picked them up and read them, breaking into a sweat, till Miss Gesser came and said, "Peters, are you sick?" to which he said he was fine and hurried off to the grounds avoiding suspicion. I was very puzzled. What could it be? At Phys Ed, he played very poorly, and made our team lose in hockey. I was both angry and worried, as he was a champion in hockey. At the end of school, I went up to him and asked, "You look worried, what happened? Anything?" I asked William, who burst out, blabbering-"You know Denser, right? She has returned!" I was confused, "What monster? Hah, you are playing a joke!" I teased him, who looked offended as well as scared.

He immediately flipped the daily newspaper to me. I was shocked! Mom's enemy, Denser, had returned! She was put in jail as soon as she fell from a cliff and she had busted out of prison! She seemed to be angry. She went back to her house hired servants and seemed to have a bigger appetite now, full of spooks around the castle and whatnot. I gasped and turned to William, "Oh, Willy? I'm so sorry about all this! We got to be safe and secure. Run!" We grabbed our bikes and dashed home. As soon as we came home, we stumbled into mom's room and blabbered out everything. But Mom didn't listen. Instead, she just laughed, "They are just spreading

fake news! C'mon, be cheerful, my little strawberries!" She cried. We ran out of the room and came to our rooms. We were miserable. How could Mom, be so normal! We went to bed that day with spooked thoughts in our heads.

On Friday, when I went to the washroom, I saw my new principal standing with a confused impression on her face, "Good morning, Miss Debby!" I said, but she interrupted me. "Miss Peters, do not open your mouth like that to me," she yelled rudely. I was filled with anger, and I cried out, "But Miss Debby—" "Don't you dare address me as Miss Debby! I told you, it's Deborah!" She yelled again. I became very suspicious, "You didn't!" I yelled, but in vain, because it fell into deaf ears. I was shocked at her behaviour! Something was not right! I walked to my class. Today, instead of learning our ABC's we were worried about the monster, and Miss Ranger too. Just then the assembly for Helen Greens High School was announced. Our principal insulted me in front of everyone, which made them suspicious about the principal. Suddenly, a girl in 9th grade, Felone Charessé raised her hand, "Why may she be insulted, ma'am?" said Felone, much to the anger of Miss Debby, "Cause I am Denser! I am supposed to take revenge! Your ancestors and your parents imprisoned me!" She cried, and much to our horror, she took out her costume and sprayed us all with poisonous liquid, and all of us except me fainted. I was filled with horror at the sight, and ran to William, who had fainted. After a long time, I woke him up. He saw me and came to his senses. Then he started blabbering about everything he felt. I calmed him down and told him what happened in real life, and my! He was awfully shocked, "We should really do something, brother, or we're dead." I said, and I could tell he was shocked, "Are you pulling my leg, Pene? You're crazy; we'll be killed!" he bellowed. I was angry at my brother for displeasing me in such a big case. As if he read my mind, He gave up, and as soon as we started the map we found, a wind blew, and the map flew into the air. Suddenly, I was lifted by the wind, as though gravity were pulling. I yelled to William as he tried to get me through the wind. But he came up with me too and was petrified. Suddenly, I started feeling dizzy, and soon I fainted.

2 hours later.
I heard cackling. I suddenly woke up, much to the anger of the person. I saw that
William and I were tied tightly in a boat. I also saw a woman, about 29 years of age, rowing the boat. She had blonde hair reaching to her waist. She had cheeks as red as roses and long nails. She wore a torn dress, making me feel that she was poor. It seemed that she was deep inside, full of niceness, but bad on the outside, "You are going to Miss Denser because you committed a big crime. Ha!" she smirked.
Quickly, I used all my strength and tried to free myself. "No way! Have you realised how she behaves so badly!? Come to your senses!! I freed myself and pounced on her.
"Look what she gave you?! Did she? Yeah? C'mon! I will make you if you don't!!" I bellowed angrily, giving the action of a strong man. She was so startled!
"I will tell you... Please leave me alone," she stuttered and told us her story.

"In actual life, I come from London. Your mom, Mensa, was a dear friend to me and a detective, as you know! One day, after Mensa defeated Denser, I became her friend, and she got married to Abraham Peters. But later, Denser was freed and kidnapped me much to the anger of Mensa. I lived with Denser for a long time and was treated evilly. Later, she told me how your mom had defeated her, and she wanted revenge. She didn't know that I was her friend! When I told her that, she became angry and scolded me. I was scared to death! I begged her to stop, but she yelled at me furiously, and so I had to stay with her. One day, I escaped. When Mensa learned my story, she was furious, and before she could save me, a duel began between Denser and Mensa, and I was taken away by some of Denser's beastly servant-spies, disguised as Mensa's friends, much to the horror of Mensa. She tried to save me later but failed to do so. I was given rags and stale meals forever.
Same happened with all the other servants, but worst of all, cruelty was to me. I mean, she
treated me the worst of all, as I was an ex-friend of her enemy. Whoever came in her way was ruthlessly injured or killed, she was

as angry as the fire gleaming in her heart. People abandoned this town, leaving forests and broken huts. She is now the ruler of the remaining people, and they really suffer now." She looked sad. She regretted what she did, apologised, and offered a simple meal.She gave shelter for the night and later bid us goodbye before leaving. I felt happy for her. I went with my brother and started following directions from a map the woman gave us.

But luck faded, and a crow swooped down on us. A spy! Quickly, we fought and stumbled but the crow took it away. Suddenly, an arrow came and killed the crow, hitting it. The Crow was a servant of Denser! We saw a man from the town who had shot the crow. He urged us to go on, speaking in broken English and German. But we walked back to our house as the map was eaten by the crow. We were miserable about all this.

Suddenly William stumbled against a sharp weed and fell down with blood oozing from his knee. His injury smarted a lot, so I quickly bandaged his knee with some antiseptic. After bandaging, I rose up and saw a castle. The enemy's castle! "My god, you got to see this," I gasped. William saw it and was amazed. The adventure begins. I ran to the castle noiselessly, with William beside me, panting. Suddenly, we stopped. The ghoul was after us. We ran until we were near a dead end. "I surrender!" I cried, much to his happiness. As he came near me, I gathered my courage and punched him, and we together managed to knock him out, and before we knew it, he was drunk, and we escaped by jumping over the walls. At last, we reached the gates, and entered noiselessly. We soon found ourselves in a big trap. We had to cross a broken bridge with lava below! I crossed it, was imbalanced at the edge of the cliff, and managed to hold on. But as William is heavy, the bridge broke under his weight just three steps before the cliff. Now he was hanging on a rope, which was breaking!

"Jump!" I cried, reaching out to him, to a pale William.The rope loosened. Suddenly it broke, and we both screamed, and he jumped up to me with much difficulty. Much to my happiness, he came up. We decided to hide, but too late!! She probably heard us, came just to our hiding place, and found us! She was holding the woman we had! The woman was scared, "Zelle, why did you help them, the little enemies?!" she cried. Suddenly, as she was about to let go, I cried out, "NO!" I said, and she glared at me and dropped Zellana Fogers to the ground.

She ran up to me and held me by the arm, hanging me upside down. I was frightened and she cackled. A furious, cruel cackle that sounded deadly! I immediately got a hold of her leg, putting her on the ground. She was furious! Suddenly, a furious duel began. We clashed and thumped and crashed. There came a time when I slipped off and tried to get up from the edge of the cliff. The fight continued furiously. I was only balancing on one leg as opposed to the other was helping me not fall off the cliff. It seemed that Denser was winning. Suddenly she trampled me to the ground with her strong hands and hurt me badly on my knee. "Hah! Let your mom meet defeat! I'm going to drink your and your mom's blood once I kill you and your feats!" she cackled. I was furious! How dare she! I saw a sword. I reached out to the shining sword, but too late! She swung me off till the edge of the cliff, where I started hanging with a hand! I was just falling when William punched her, and another duel began. I tried to reach the sword. Suddenly, a few rocks crashed, and I fell! I struck my foot against some rocks and put my foot! With the other rocks falling, I struck them against the cliff and climbed up, with anger at Denser. We were soon fighting together with Denser, and I fell to the ground, hurting my ear. My brother dropped his weapons and ran to me. But she held him by the leg and tried to swing him off the cliff! I was frightened! I quickly reached out to William's sword, and as she was doing her swing, I cried out, "Miss Debby, you are going to regret this!" saying so, before she could swish me off, I struck her in the leg. She cried with pain and let William fall off, screaming. She instantly died. I hurried off, and I saw William hanging on to the edge of the cliff. I grabbed his arm, and he was relieved. But he was too heavy, and so we all fell off the cliff, screaming. We luckily fell in the snow and weren't that hurt. Soon, people came rushing towards us to question us. When we told them that we finally killed Denser, the evil, they cheered for us and showered us with money and flowers. We

really felt happy!
Mom was there, cheering the loudest for us. We had some minor bruises, so we decided to have ourselves bathed and bandaged. We had yummy food to eat. Fresh pea soup, jam tarts, boiled potatoes along with yummy spaghetti and roast beef, and we had hot chocolate with cherry ice cream for dessert! How fun and delicious! We had a lovely day!
Here is the end of my story, and I hope you enjoyed it. Now it's time to eat strawberry cream and go to school! Don't forget us! Bye!

The Rainbow Slide

There was a girl named Ria. She always went down to play after her homework. She loved the rainbow slide in the park, because the slide was so swirly and also has rainbow colors. So, she went up the stairs and went so fast that the slide's colour was mixed and became white. But, when she came down and looked from the bottom, and she saw the slide was a rainbow. She got confused and went home. She asked her mother, "How did it become white?" Her mother told her, "If you draw a circle and divide it into eight equal pieces and put different colours in each piece. Then make a hole in the middle, put a stick through the hole, and spin it fast; the circle will become white." The next day she went down to play with her friends [Misti, Sofia, Sophie, Bayley, and Katie]. Sofie and Sofia saw something in the bushes. She went near the bushes and saw a unicorn! Everybody was so shocked.

Once upon a time, there lived three best friends. One is a ladybird, the second is a beetle, and the last one is a mosquito. All of them were detectives. One morning they were all watching the news, and it was saying, "Insects are getting lost; please be careful".

The detectives were getting ready to solve this big issue. They were thinking a lot but couldn't find anything. They asked some insects about it. Finally, they found out who took all the lost insects from lots of information. They got to know that a monster insect was doing all these bad things. All three detectives started their journey to fight with the bad monster. They were so strong that they could defeat the big, monster insect. After killing

Five Friends Rescue the Unnatural Mongoose

Once, there lived five friends who used to love adventure. Their names are Mary, Sam, Sara, Michael, and Lisa. One day, they thought of visiting a beach. When they reached the beach, they jumped into the sea.There was a hotel near the beach where they were staying.
Soon evening arrived. The children were enjoying themselves that they forgot to return to their hotel. Nobody was there on the beach except those five friends. Suddenly, Sara heard a sound of crying and told others about it. Sam said, "Friend, the sound is coming from that

narrow road". Sam went towards the narrow road, and the others followed him.

When they reached the end of the road, they saw an abandoned house. They all saw something very quickly pass before their eyes. They entered the house silently. Suddenly, Michael screamed, seeing something. Then they were all very surprised to see a weird mongoose wearing a crown. When the mongoose came out, it seemed very unhappy. It started crying and told them it could not find its daughter. A wicked man captured the baby unnatural mongoose and kept it in a cave, as the mother mongoose said to them.

They had never seen a talking mongoose before. So, they could not utter a single word for a few seconds. Then they felt sorry for the mongoose, and they said to the mongoose, "Don't worry, we will get your daughter back soon". Mary had the magical power to transform herself into a small insect. She alone flew off to the cave. She finally found the baby mongoose, who was also wearing a crown. Mary called her friends, and they rescued the baby mongoose. The mother mongoose was so amazed to see her daughter back. The mongoose gave them a shiny stone as they spread out their kindness.

The best Friend- Good Books!

Life is not easy to live without friends. We all need friends who will be there for us when needed and who would understand us nicely. Books can be our best friends for life, for all the right reasons. Books not only communicate knowledge but also infuse our minds with a wealth of fresh ideas to force us to think in good ways. A good book is like a true friend who is always by your side to assist you with wisdom and awareness to make the right decisions.

Good books enrich our minds with good thoughts and knowledge, just like a good friend. We cannot feel alone in the company of books. We can learn many good things while reading a good book. Books written by famous and experienced people help us become better human beings and teach us how to serve society in the best possible way. When we are alone, we can always pick up a book and start reading to feel relaxed. Books are a storehouse of knowledge. They are our best friends, often working as our friends, philosophers, and guides.

Books are our best friends because they inspire us to do great things in life and overcome our failures. We learn a lot from good books, just like a good friend. Books can be good or bad, but it is our responsibility to choose them wisely. Friendship with good books makes you a good person, and friendship with Bad books make you a bad person. Books will always be there for you in your bad times. Books teach us to have dreams. Books bring positive value to our lives. Good books enrich our minds and broaden our perspective on life.

Each book is like a different type of person we meet in our lives. People say to choose your friend wisely; likewise, choose your books wisely; they can make or break you. Today, due to technology evolving, books are coming in the form of Kindles, iPads, and tablets. But using the device (technology) wisely will make your life successful. So, books are our ultimate best friend.

The Journey To The Secret World

Once, there lived a curious girl named Sahara. She had a very strong imagination. One day when she was playing in the garden, she went to the store room to get a ball to play with.

When she entered the store room, she saw another new door in the corner. She was very curious and entered the door. Then she noticed that she had entered another world with many machines like lifts that take you to space, cars that can fly, etc. And the year was 2030, and there was not even a single tree or plant. She walked aimlessly on the road. After a while, she saw a building and thought that she could stay there for some days till she found a way to get back home. When she entered, she saw three moonstones and a note.

The note read:
Dear Sahara,
You must save this world. Everyone in this world falls sick very often because there is not even a single tree (I think you may have noticed). In order to get trees to grow here, you must follow these moon stones to the kingdom of plants and trees. Sahara thought for a while, then she said to herself, “First, I entered a new world from my store room, and now I have to go to another world to save this world! But I do like adventures, so I’ll do it.’’ Then she took a closer look at the moon stones and saw symbols on them. The first moon stone had a symbol of a tree with some weird fruit and a moon symbol in the middle of it. Sahara understood that the tree was a moon tree. But she was confused because there is no such thing as a moon tree. The second moonstone had a symbol of water. And the third moon stone had a symbol of a girl pouring water on the ground and from the place where the water dropped, a plant grew. Then Sahara understood that she must go to the kingdom of plants and trees, find the moon tree, get some water from its fruit, and pour that water all over the world. “But how?’’ she thought. Then she thought that there must be something written on the back side of the note. And she was right.

The note read:
“Oh, and one more thing: there are only three moon stones here, but actually there are supposed to be six.” Sahara thought, how could I find the other three moon stones? Then she continued reading “Don’t worry, I will tell you how to find the other three moon stones. Take the three moon stones and walk straight on the roads, but do not forget to check every turn. When you get close to the other three moon stones, these moon stones, which you have now with you, will glow, they will create a map to reach the moon tree when all six moon stones are joined together.” So, Sahara set off with the three moon stones and the note. She wandered aimlessly on the roads. Finally, at a dead end, she saw a wall near her, and the moon stones started to glow. She searched the wall and found three tiles, which were moon stones. She took the moon stones from the tiles, and she joined all six moon stones together. They formed a map as the note read. It was written on the map, “Go straight and head to the right side of the road and to find the door to the Kingdom of Plants and Trees. Go straight to find the moon tree.” So, Sahara walked to where the map pointed, and she saw a door. When she entered the door, she saw the kingdom of plants and trees. She headed straight and finally reached the moon tree, she asked the moon tree, “Dear Moon Tree, Can I please take a little water from your fruits to make plants grow in the secret world?’’ The moon tree asked, “Who are you? And how did you get here?’’ Sahara showed the moonstone map to the moon tree. The moon tree smiled and said, “Oh, so you are the chosen one. Ok, sure, you can take a little water from my fruits." So, she collected the water and went back to the secret world. Then she thought I shouldn’t let the magic

water drop on the buildings; otherwise, the buildings will be covered with plants, and no one can live there. She went to a scientist and convinced him to get her some of his dooms and one of his aeroplanes and explain to him why she needs them. The scientist agreed, and Sahara was able to pour the magic water droplets all over the secret world without any mistake. The next minute, the secret world was full of plants (except for the buildings). Finally, she asked the moonstone map to take her back home, and the next second, she was back home, standing in the garden, safe and sound.

Beep! Beep! Honk! Honk!

Once upon a time, in the small village of Vastrapur, there lived Laalu, Aalu, and Haalu. They were very close friends. Laalu was a sweet little ball, always emitting bright red light. Aalu is a kind, little ball, forever emitting amber light. Haalu, a highly energetic little ball, consistently emits green colour. They always spent time with each other. However, they were very sad about one thing. People would play with them, bounce them, throw, and catch, but would not take Laalu, Aalu and Haalu seriously. So, the three ball friends decided to go to a scientist. The scientist after many experiments, decided to turn them into traffic lights. He attached the three balls buddies on a pole. Now, people in Vastrapur followed the traffic light. The three buddies were happy as the villagers followed their instructions and paid a lot of attention to them. Three friends now showed the direction and paved the way for the people of Vastrapur. Beep! Beep! Honk! Honk!

How I spent my New Year's Day

When the New Year 2024 was approaching, we all got excited to bid farewell to the year 2023 and welcome 2024 with our family and friends in a grand way. My father suggested that we would go to a resort for the New Year celebration. The resort was Elim Resort. We reached there on December 30 with our family and our friends' family. We enjoyed it a lot, like the outdoor adventure activities like zip-lining, cricket, football, ladder climbing, and indoor activities. There was a shop from which I bought two whistles. We enjoyed a variety of foods. There was a cracker show at midnight on December 31 to welcome the New Year. We danced and played the whole evening of December 31. We greeted each other on the New Year. We returned home happily on the evening of January 1, 2024. It was the best NewYear celebration for me.

My Trip to Thailand

It was a nice sunny day at the Phuket Airport when we landed. The cab driver was waiting to take us to the beautiful resort in Krabi. As we were tired from the travel, we took a quick

nap at the resort. After that, we went to the beach, where I played in the water, and my brother collected seashells. We then went to the night food market. While we were eating shrimp, my brother had an allergic reaction to it. My parents got medicines from a pharmacy.Next morning, we had breakfast at our resort and went to nearby islands in a speedboat. I had lots of fun in Krabi, but the story is not done yet. From Krabi, we went back to Phuket for two more days. In Phuket, we relaxed and went to the 'infinity' swimming pool at the hotel. The following day, we went on a four-island tour. On the beaches, the water was very clear. I saw lots of colourful fish near me. We had yummy juice at a beachside restaurant. At night, we decided to explore the local markets. The market was full of people, and there were many colourful items at the stalls. And just like that, my first international trip to Thailand was over. The trip was super fun!

I went to the Future

Hi, my name is Pihu, and I am a scientist. I always wanted to time travel, so one day I was creating a time machine. I was sure that I wanted to go in the future. When I went inside, it was 2031. First, I saw robots running around everywhere. A robot asked me to give me $1,000, then you can go to the hotel. Jeez, the future is expensive, but I can afford it any way when I woke up.
The same robot gave me a breakfast in bed. Then I went to the nearby coffee store, where there were humans there, but less and more robots. When I was walking down the street, I saw an ice-cream fountain. I obviously had to take a lick of it. Then I saw an Apple Store. I went to get an I-phone 13, but instead there was an I phone 22. I obviously had to take it. Then I went back to my house. Wow, it was a busy day today.

A Magical Tale

There was a girl named Sophie. She was very poor. She lived with her mother in a hut. One day her mother asked her to get wood, so she went to the forest to get some wood. When she was collecting wood, she saw an old, injured man sitting on the grass, crying.
The old man told her that I was feeling very hungry. She got the apples from the forest after searching a lot. He thanked her. Next year, the girl went back to the forest and saw a big mansion. Then she saw the old man. The old man thanked me in tears. He told her this was an act of kindness. The old man gave her 10 gold bars and 1,000 million dollars. The girl ran happily home.

"The Magical Forest"

Once upon a time, there was a magical forest. It had magical trees that healed any injured animal in no time. One day, two lion cubs named Popa and Lavi were playing hide-and-seek together. They were having so much fun that I did not hear a hunter come. That hunter's arrow hurt Popa deeply. But she was hiding. So, the hunter thought, "Let me come tomorrow and search for it," and he went back to his village. All the animals gathered around

Popa. Lavi had fainted. Other animals took Popa and Lavi to one of the magical trees and gave its leaf to eat. Popa and Lavi were cured in no time, and they thanked the magical tree for the magic. All the animals started playing again.

A Fun Day at the Christmas Carnival

One delightful day, my family and I visited a mall, and we had loads of fun together. We went to a nice restaurant where I ate yummy food like chocolate mousse, pineapple pudding, caramel custard, mud pie, and more! After the delicious meal, we discovered a Christmas carnival. Excited, I asked my parents to join in, and they agreed. My dad got us tickets, and I had a blast playing games like Bottle ring toss, touch me not challenge, maze challenge, balloon shooting, and golf. Bottle ring toss was my favourite!

I even met Santa Claus and took pictures with him and a giant Christmas tree. Santa gave me wonderful gifts that made me smile. Next, I visited a book store and bought some exciting stories books and toys, and had a fun ride on a toy train and a car. Later, we went shopping, and my dad got me pretty dresses and shoes. As we left the store, I got surprise gifts and colourful balloons. It was a day full of wonderful experiences, and I had so much fun!

मैं पहली बार कोलकाता के चिड़ियाघर में गयी थी। मैं इस सैर पर जाने के लिए बहुत उत्सुक थी। मुझे याद है जब मैं कोलकाता चिड़ियाघर गयी थी। मैंने पहली बार शेर देखा था। वहाँ सांप, शेर, हाथी, तोता जैसे पशु पक्षी थे। मैंने वहाँ एक माता को देखा जो अपने बच्चे को प्यार कर रही थी। मैंने वहाँ पर उन पशु पक्षियों की तस्वीर भी ली। मैंने पूरे चिड़ियाघर में विचरण किया और वहाँ के प्रतीक जानवरों व पक्षियों को नजदीक से देखा और उनके बारे में जानकारी प्राप्त किया। मैं अपने दादाजी के साथ चिड़ियाघर गयी थी।

दिवाली भारत देश का मुख्य त्यौहार है और इसे बहुत धूम-धाम से मनाया जाता है। इसे दीपों का त्यौहार और दीपावली भी कहा जाता है। दीपावली का अर्थ है- दीपों की पंक्ति। इस दिन माता लक्ष्मी और भगवान श्री गणेश की पूजा की जाती है, पटाखे फोड़े जाते हैं और स्कूल अतिशबाज़ी की जाती है। दिवाली के त्यौहार पर हम दूसरों को बधाइयाँ देते हैं और अपनों से बड़ों का आशीर्वाद लेते हैं। दिवाली कार्तिक माह की अमावस्या को मनाई जाती है। इस त्यौहार के दौरान सभी लोग नए-नए वस्त्र पहनकर अपने घरों को रंगोली, रंग-बिरंगी लाइटों और मिट्टी के दियों से सजाते हैं। दिवाली इसलिए मनाई जाती है क्योंकि इस दिन भगवान श्री राम 14 साल का वनवास काटकर अयोध्या वापिस लौटे थे। यह त्यौहार बुराई पर अच्छाई की जीत का प्रतीक है।

परिवार की एहमत

हमारे लिए परिवार बहुत ज़रूरी होता है।
परिवार से हमें नए रिश्ते मिलते हैं।
परिवार होने से सारे त्योहार और आस दिन बहुत ही मज़ेदार होते हैं।
हमारा भारत देश भी एक ऐसा परिवार है, जहाँ पर कई भाषा, धर्म और विभिन्न प्रकार के कपड़े पहनने वाले लोग, एक दूसरे के साथ मिल-जुल कर रहते हैं।
अत: परिवार, हम सबके लिए खुशहाली लाता है।

प्रकृति की सुषमा

आसमान पर चमका सूरज, दूर हुआ अँधियारा
चंदा ने आकर नभ को, दिया रूप इक प्यारा।
झिलमिल-झिलमिल तारे आए चमकीले - चमकीले
आसमान पर छाए देखो कितने नीले, पीले।
नदियाँ बहतीं, झरने झरते, रंग-बिरंगे पुष्प हैं खिलते।
विविध तरह के फल-फूलों से, प्रकृति के सुंदर रंग झलकते।
चारों ओर लताएँ छाईं, वृक्ष झूमनेवाले। ऊँचे-ऊँचे
पर्वत हैं आकाश चूमनेवाले।
चिड़ियों के सुमधुर कलरव से गूँज उठी है धरती। छाई
रहती ऐसी सुषमा प्रकृति सदा ही हँसती।
इन सबसे ही लगती हमको दुनिया इतनी प्यारी

प्रकृति का लेन देन

तितली बोली फूल से, तुम कितने सुंदर हो,
क्या तुम अपना मीठा रस मुझे दे सकते हो?

फूल बोला जल्दी लेलो, आज मधुमक्खी की बारी है,
शहद बनाकर माली को देना, उसकी ज़िम्मेदारी है
माली बदले में नए-नए फूल खिलाता है,
हम सबकी रखवाली, कर हमें बचाता है।

तितली बोली मैं भी तुमको कुछ देना चाहती हूँ
तुम सबके लिए मैं भी कुछ करना चाहती हूँ
फूल बोला उड़-उड़ कर तुम पराग फैलाती हो,
एक फूल से दूसरा फूल तुम्ही तो खिलाती हो।

एक दूसरे के काम आना, यही तो जीवन है,
कुछ लेना कुछ देना, यही प्रकृति का नियम है।

एक शनिवार

एक शनिवार, जब मैं उठा। मैंने अपने कमरे की जगह दौलत देखा। मुझे आश्चर्य हुआ। मैंने अपने पापा से पूछा, "पापा हम कहाँ हैं?" वह बोले, "हम लद्दाख में हैं मेरे बेटे" मैं खुश था कि एक दिन मेरा सपना सच हो गया। सुबह दस बजे हमने लद्दाख की खूबसूरत जगहों का दौरा करना शुरू किया। सबसे पहले हम नुब्रा घाटी गए। कितनी खूबसूरत थी। हमने पहाड़ों को देखते हुए नाश्ता किया। यह लद्दाख का एक ऐतिहासिक क्षेत्र है। थोड़ी देर बाद, हम प्योगयांग झील की ओर अपनी यात्रा फिर से शुरू करते हैं। झील में मुझे तीन से चार रंग दिखे। हमने दोपहर का खाना खाया और कुछ तस्वीरें लीं। जब हम दोबारा कार में बैठे तो मुझे कुछ अजीब सी आवाजें सुनाई दे रहीं थी। यह था, "अथर्व! अथर्व उठो" मैं उठा और देखा कि मैं अपने कमरे में हूँ। मुझे ऐसा लगता है कि मैं एक सपना देख रहा था लेकिन एक दिन मुझे पता है कि मेरा सपना सच होगा। फिर जब मैंने अपना सपना अपने पापा को बताया तो उन्होंने कहाँ कि हम अगले गरमी कि छुट्टियों में लद्दाख जा रहे हैं।

भारत की ऋतुएँ

भारत का मौसम अन्य देशों से बहुत अलग है। इसका मौसम हमेशा बदलता रहता है और मुख्य रूप से 6 प्रकार के मौसम को यहाँ देखा गया है जिनके नाम हैं - वसंत, ग्रीष्म, वर्षा, शरद, हेमंत और शीत ऋतु। कई देशों में या तो साल भर बहुत सर्दी होती है या तो बहुत गर्मी परन्तु भारत में हर दो - तीन महीने में मौसम बदलते रहते हैं जिसका एक मज़ा है।

इससे किसानों को भी मदद मिलती है और वातावरण भी शांत और सुखद बना रहता है।

पर्यावरण लेख

मानवीय गतिविधियों के कारण पृथ्वी पर जीवन को अभूतपूर्व चुनौतियों का सामना करना पड़ता है। प्राकृतिक घटकों में वायु, जल, भूमि और जीवित जीव शामिल हैं। सड़क, उद्योग, भवन आदि मानव निर्मित घटक हैं। प्राकृतिक पर्यावरण को चार मुख्य घटकों में विभाजित किया जा सकता है - जीवमंडल, स्थलमंडल, जलमंडल और वायुमंडल। वायुमंडल पृथ्वी के चारों ओर की वायु परत है, जिसमें जल वाष्प, गैसें और धूल के कण होते हैं। मनुष्यों, पौधों और जानवरों की जीवित दुनिया जीवमंडल का गठन करती है। पर्यावरण को उसकी मूल स्थिति में वापस लाना बेहद जरूरी है और यही एक मात्र समाधान है। अब समय आ गया है कि लोग समझें कि पर्यावरण का स्वास्थ्य महत्वपूर्ण है। हम सब मिलकर पर्यावरण को बचाएं और खुश रहे।

सब कुछ लूट के करते बर्बाद,

बरसात के दिन

जून से सितम्बर तक बरसात का महीना होता हैं। घर की खिड़कियों में से वर्षा की बूंदो को टपकते देखना का मज़ा ही कुछ और होता है। यह नज़ारा मन को बहुत आनंद देता है।

मेरी माँ रोज़ गरम पकोड़े बनाते थे। वे आलू, गोबी, प्याज़, बैंगन, आदि पकोड़े बनाते थे। उसे खाने पर मज़ा ही कुछ ओर था।

माँ विभिन्न प्रकार की मिठाइयाँ,जलेबियाँ,गरमा-गरम हलवा आदि बनती थी।

बारिष के बाद हम रंग-बिरंगे कागज़ की कश्ती पानी में छोड़ देते थे। फिर हम देखते थे किसकी कश्ती ज्यादा दूर जाती है।

ये एक प्रत्यायोगिता के जैसा था। तेज हवा के झोके देने से कश्ती और तेज जाने लगती थी।

इस प्रत्यायोगिता के हो जाने पर हम वही गंदे पानी में उछल-कूद करते थे और बहुत मज़ा आता था।

बारिश के समय हम बाहर खेल नहीं सकते थे तो मेरा पूरा परिवार एकखट्टा होकर घर के अंदर ही खेल खेला करते थे।

जैसे- साँप-सीढ़ी, शतरंज, लूडो आदि खेल खेला करते थे।

ऐसे ही अनोखे मस्ती से भरे थे हमारे बरसात के दिन।

प्रकृति का संदेश

चिड़िया से हैं उड़ना सीखा,
तितली से इठलाना,
भँवरों की गुंजन से सीखा,

तेज़ लिया सूरज से हमने,
चाँद से शीतल छाया,
टिम-टिम करते तारो की,
हम समझ गए सब माया।

क्या हाल में हैं तुम्हारे बाल?

– अन्या शाह 9I

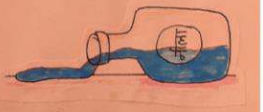
क्या हाल
में हैं तुम्हारे बाल!
तुमने रंग डाला है लाल,
करो अपने बालों का ख्याल!

रंग देखकर
दो गए तुम्हारे प्रियजन बेहाल।
व्यथित हुई हूँ मैं भी,
परंतु मुझे जाना है फिलहाल॥

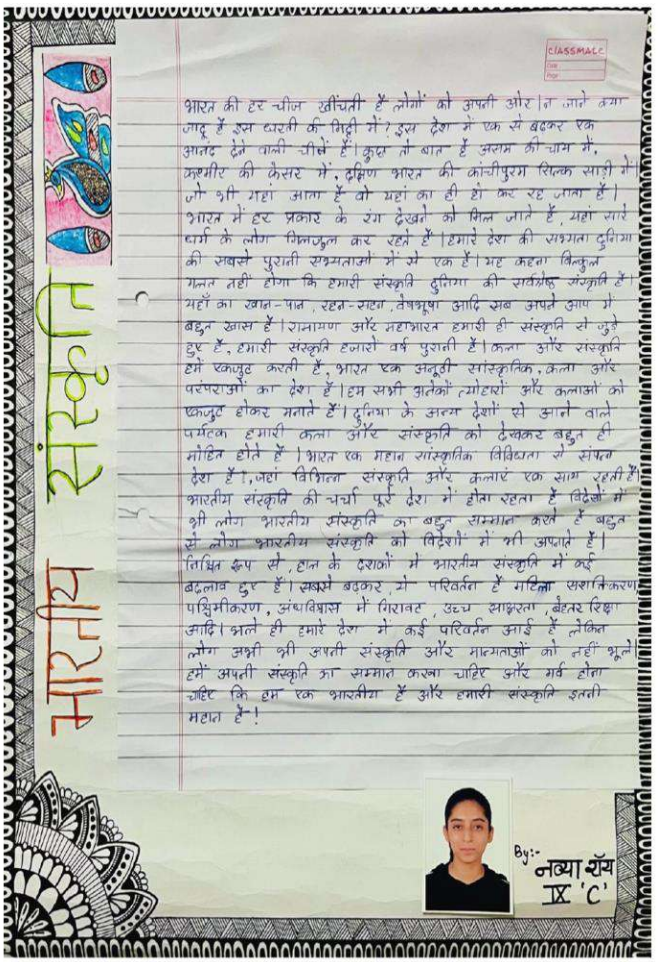
देर और धूमाल
के बाद, मिले हम आले बाल।
हुरे थे तुम्हारे बाल (हाँ, हरे!)
है यो कमाल,
ऐसे बाल हैं बेमिसाल॥

क्या हाल
में हैं तुम्हारे बाल!
कसी नहीं तुम मलाल?
करो अपने बालों का ख्याल!
तुम्हें यह समझाना है मुहाल॥

ईश्वर ने दिए हैं,
तुम्हें सुंदर बाल।
तुम नीले रंग डालने की बात,
कर रही हो फिलहाल॥



उफ! और कोई है नहीं सवाल,
काटने पड़ेंगे तुम्हारे बाल।



भारतीय संस्कृति

भारत की हर चीज खींचती है लोगों को अपनी ओर। न जाने क्या जादू है इस धरती की मिट्टी में? इस देश में एक से बढ़कर एक आनंद देने वाली चीजें हैं। कुछ तो बात है जरूर इसकी धाम में, कश्मीर की केसर में, दक्षिण भारत की कांचीपुरम सिल्क साड़ी में जो भी यहां आता है वो यहां का ही हो कर रह जाता है। भारत में हर प्रकार के रंग देखने को मिल जाते हैं, यहां सारे धर्म के लोग बिलकुल कर रहते हैं। हमारे देश की सभ्यता दुनिया की सबसे पुरानी सभ्यताओं में से एक है। यह कहना बिलकुल गलत नहीं होगा कि हमारी संस्कृति दुनिया की सर्वश्रेष्ठ संस्कृति है। यहाँ का खान-पान, रहन-सहन, वेषभूषा आदि सब अपने आप में बहुत खास है। रामायण और महाभारत हमारी ही संस्कृति से जुड़े हुए हैं, हमारी संस्कृति हजारों वर्ष पुरानी है। कला और संस्कृति हमें एकजुट करती है, भारत एक अनूठी सांस्कृतिक, कला और परंपराओं का देश है। हम सभी त्यौहारों और कलाओं को एकजुट होकर मनाते हैं। दुनिया के अन्य देशों से आने वाले पर्यटक हमारी कला और संस्कृति को देखकर बहुत ही मोहित होते हैं। भारत एक महान सांस्कृतिक विविधता से संपन्न देश है, जहां विभिन्न संस्कृति और कलाएं एक साथ रहती हैं। भारतीय संस्कृति की चर्चा पूरे देश में होता रहता है विदेशों में भी लोग भारतीय संस्कृति का बहुत सम्मान करते हैं बहुत से लोग भारतीय संस्कृति को विदेशों में भी अपनाते हैं। विभिन्न रूप से, हाल के दशकों में भारतीय संस्कृति में कई बदलाव हुए हैं। सबसे बढ़कर जो परिवर्तन हैं महिला सशक्तिकरण पश्चिमीकरण, अंधविश्वास में गिरावट, उच्च साक्षरता, बेहतर शिक्षा आदि। भले ही हमारे देश में कई परिवर्तन आई हैं लेकिन लोग अभी भी अपनी संस्कृति और मान्यताओं को नहीं भूले हमें अपनी संस्कृति का सम्मान करना चाहिए और गर्व होना चाहिए कि हम एक भारतीय हैं और हमारी संस्कृति इतनी महान है!

महिला सशक्तिकरण: एक नई दिशा

महिला सशक्तिकरण एक महत्वपूर्ण मुद्दा है जो हमारे समाज को एक नई दिशा में ले जा सकता है। महिलाएं समाज की नींव होती हैं।

सशक्तिकरण का मतलब है महिलाओं को समाज में सशक्त बनाना। यह निश्चित करना है कि महिलाएं स्वतंत्रता, समानता, और आत्मनिर्भरता के साथ अपने अधिकारों का उपयोग कर सकें।महिला सशक्तिकरण में शिक्षा का महत्वपूर्ण योगदान है। शिक्षित महिलाएं समाज में अधिक से अधिक योगदान दे सकती हैं और अपने सपनों को पूरा करने में सक्षम बन सकती है। समाज में महिलाओं को सक्षम बनाने के लिए संसाधन प्रदान करना हम सभी की जिम्मेदारी है। समाज में अधिक से अधिक महिलाओं के आत्मनिर्भरता को समर्थित करने के लिए सकारात्मक परिवर्तनों की आवश्यकता है। सरकारों, समाजसेवी संगठनों, और व्यापारिक संस्थाओं को एक साथ काम करके महिलाओं को सशक्त बनाने के लिए नीतियों को बढ़ावा देना चाहिए।देश की करीब आधी जनसंख्या महिला होने के कारण, अधिक महिलाओं का शिक्षित और काबिल बनाकर देश का विकास मुमकिन है। महिला सशक्तिकरण से ही हमारे समाज और देश को समृद्धि की दिशा मिल सकती है।

जब महिलाएं सक्षम होंगी, तो समाज भी सक्षम होगा। इसलिए, हमें महिला सशक्तिकरण को प्राथमिकता देनी चाहिए ताकि हमारा समाज एक नए दृष्टिकोण के साथ आगे बढ़ सके।

स्वर्ग की सैर: हवाई जहाज

आसमान में इतना नीला,
हवाई जहाज़, वे नाचते हैं और मोहित करते हैं।
बादल काटते हुए, वे अपना रास्ता बनाते हैं।
सूरज की सुनहरी किरण का पीछा करते हैं।

चिड़ी के पक्षी जिनके पंख इतने विशाल,
उनके पेट में, सपने बसते हैं।
उम्मीदों के धरती से धरती तक ले जाते हैं,
आसमान की आशा में, वे मंडराते हैं,

रात भर, वे अपनी रोशनी फैलाते हैं,
अनंत यात्रा में मार्गदर्शन करते हैं।
हवाई जहाज़ अभी उड़ान में इतनी मुक्त,
वे दुनिया को एक संगीत की तरह एकजुट करते हैं।

रात का राजा

Shaurya Tiwari 10-A

मैंने पूछा चांद से, आखिर रोते हो क्यों?
चांद मुझे बोला, आखिर सोते हो क्यों?

मेरी तुम्हारी नफरत के बीच आखिर मैंने क्या बिगाड़ा?
की देखते ही आता है, सिर्फ बिस्तर का इरादा।

सुराज आता तो सब चल पड़ते हैं मैदान,
लेकिन मुझे देखकर आखिर क्यों आता सिर्फ सोने पर ध्यान?

मैंने पूछा चांद से, क्यों हो उदास?
चांद कहता मुझे भक्त चाहिए, जैसे राम का रैदास।

मेरे पास रोशनी नहीं इसमें मैं क्या करूं?
सूर्य की किरण लेते हुए, मैं सोचता सिर्फ मुझे ही जरूरत क्यों?

मेरे आने पर क्यों हो जाता है सब अंधेरा?
पर सुराज आता तो मिलती है जीने की प्रेरणा?

चांद लगता दुखी तो मैंने सोच लिया,
उसके पास सुख लाने के लिए सिर्फ मैं हूं जिमेदार।

मैंने पूछा चांद से, आखिर रोते हो क्यों तुम?
शाम के समय कोयले में सिर्फ एक ही हीरा हो तुम।

सितारों में से तुम्हारे आकार के पास कोई न आता,
इसलिए इस दुनिया में तुम ही हो हमारे रात का राजा।

ಬಾಹ್ಯಾಕಾಶದ ಪ್ರದೇಶವಾಗಿದ್ದು, ಅದರಿಂದ ಬೆಳಕು ಸೇರಿದಂತೆ ಯಾವುದೂ ತಪ್ಪಿಸಿಕೊಂಡು ಹೋಗುವುದು ಸಾಧ್ಯವಾಗುವುದಿಲ್ಲ. ಇದು ತೀರಾ ಸಾಂದ್ರೀಕೃತ ದ್ರವ್ಯರಾಶಿಯಿಂದ ಉಂಟಾದ ಸ್ಪೇಸ್ ಟೈಮ್ (ದೇಶ-ಕಾಲ) (ದೇಶದ ಮೂರು ಆಯಾಮ **ಮತ್ತು ಕಾಲದ ಒಂದು ಆಯಾಮದ ಕಲ್ಪನೆ)** ರೂಪವಿಕೃತಿಯ ಫಲಿತಾಂಶವಾಗಿದೆ. ಕಪ್ಪು ಕುಳಿಯ ಸುತ್ತ ಗುರುತಿಸಲಾಗದ ಹೊರಮೈಯಿದ್ದು ಇದು ಹಿಂತಿರುಗಲಾರದ ಬಿಂದುವನ್ನು ಸಂಕೇತಿಸುತ್ತದೆ. ಈ ಹೊರಮೈಯನ್ನು ಇವೆಂಟ್ ಹಾರಿಜಾನ್ (ಬೆಳಕು ಹಾದುಹೋಗದ ಕಪ್ಪುಕುಳಿಯ ಸುತ್ತಲಿನ ಪ್ರದೇಶ) ಎಂದು ಕರೆಯಲಾಗುತ್ತದೆ. ಇದನ್ನು ಕಪ್ಪು ಎಂದು ಕರೆಯಲಾಗುತ್ತದೆ. ಏಕೆಂದರೆ ಉಷ್ಣಬಲ ವಿಜ್ಞಾನದ ಪರಿಪೂರ್ಣ ಕಪ್ಪು ಕಾಯದ ರೀತಿಯಲ್ಲಿ ಅದಕ್ಕೆ ಬಡಿಯುವ ಎಲ್ಲ ಬೆಳಕನ್ನು ಹೀರಿಕೊಂಡು, ಏನನ್ನೂ ಬಿಂಬಿಸುವುದಿಲ್ಲ. ಕಪ್ಪು ಕುಳಿಗಳು ಕೂಡ ಪರಿಮಿತಿಯ ಉಷ್ಣಾಂಶದೊಂದಿಗಿರುವ ಕಪ್ಪು ಕಾಯದ ರೀತಿಯಲ್ಲಿ ವಿಕಿರಣವನ್ನು ಸೂಸುತ್ತವೆ ಎಂದು ಕ್ವಾಂಟಮ್ ಯಂತ್ರಶಾಸ್ತ್ರ ಮನಗಂಡಿದೆ. ಈ ಉಷ್ಣಾಂಶವು ಕಪ್ಪು ಕುಳಿಯ ದ್ರವ್ಯರಾಶಿಯೊಂದಿಗೆ ಇಳಿಮುಖವಾಗುತ್ತದೆ. ಇದರಿಂದ ನಾಕ್ಷತ್ರಿಕ ದ್ರವ್ಯರಾಶಿಯ ಕಪ್ಪುಕುಳಿಯ ವಿಕಿರಣವನ್ನು ಗಮನಿಸಲು ಕಷ್ಟವಾಗುತ್ತದೆ. ಇದರ ಅದೃಶ್ಯ ಒಳಪ್ರದೇಶದ ನಡುವೆಯೂ, ಕಪ್ಪು ಕುಳಿಯನ್ನು ಇತರ ಭೌತಶಾಸ್ತ್ರದ ಜತೆ ಪರಸ್ಪರ ಕಾರ್ಯದ ಮೂಲಕ ವೀಕ್ಷಿಸಬಹುದು. ಬಾಹ್ಯಾಕಾಶದ ಪ್ರದೇಶದಲ್ಲಿ ಪರಿಭ್ರಮಣೆ ಮಾಡುವ ನಕ್ಷತ್ರದ ಗುಂಪಿನ ಚಲನೆಯ ಜಾಡು ಹಿಡಿಯುವ ಮೂಲಕ ಕಪ್ಪು ಕುಳಿಯನ್ನು ನಿರ್ಣಯಿಸಬಹುದು. ಪರ್ಯಾಯವಾಗಿ ನಾಕ್ಷತ್ರಿಕ ಕಪ್ಪು ಕುಳಿಯಲ್ಲಿ ಜೊತೆ ನಕ್ಷತ್ರದಿಂದ ಅನಿಲ ಬಿದ್ದಾಗ, ಅನಿಲವು ಒಳಮುಖವಾಗಿ ಸುರುಳಿಯಾಗಿ ಸುತ್ತುತ್ತದೆ. ಅತ್ಯಂತ ಉಷ್ಣಾಂಶಕ್ಕೆ ಬಿಸಿಯಾಗಿ ದೊಡ್ಡ ಪ್ರಮಾಣದ ವಿಕಿರಣವನ್ನು ಹೊಮ್ಮಿಸುತ್ತದೆ. ಇದನ್ನು ಭೂಮಿಯಿಂದ ಅಥವಾ ಭೂಮಿಯನ್ನು ಸುತ್ತುವ ದೂರದರ್ಶಕಗಳಿಂದ ಗುರುತಿಸಬಹುದು. ಖಗೋಳ ವಿಜ್ಞಾನಿಗಳು ಅಸಂಖ್ಯಾತ ನಾಕ್ಷತ್ರಿಕ ಕಪ್ಪು ಕುಳಿಗಳನ್ನು ಗುರುತಿಸಿದ್ದಾರೆ ಹಾಗು ಗ್ಯಾಲಕ್ಸಿಗಳ ಮಧ್ಯದಲ್ಲಿ ಬೃಹತ್ ಗಾತ್ರದ ಕಪ್ಪುಕುಳಿಗಳ ಬಗ್ಗೆ ಸಾಕ್ಷ್ಯವನ್ನು ಪತ್ತೆ ಮಾಡಿದ್ದಾರೆ. ೧೯೮೦ರಲ್ಲಿ ಖಗೋಳ ವಿಜ್ಞಾನಿಗಳು ಕ್ಷೀರಪಥ ಗ್ಯಾಲಕ್ಸಿಯ ಮಧ್ಯದ ಪ್ರದೇಶದಲ್ಲಿ ಸ್ಯಾಗಿಟ್ಟಾರಿಯಸ್ ಎ* ಬಳಿ ೨ ದಶಲಕ್ಷ ಸೌರ ದ್ರವ್ಯರಾಶಿಗಳಿಗಿಂತ ದೊಡ್ಡದಾದ ಬೃಹತ್ ಕಪ್ಪುಕುಳಿಯ ಅಸ್ತಿತ್ವದ ಬಗ್ಗೆ ಸಾಕ್ಷ್ಯಾಧಾರವನ್ನು ಪತ್ತೆಹಚ್ಚಿದ್ದಾರೆ. ಹೆಚ್ಚುವರಿ ದತ್ತಾಂಶವನ್ನು ಬಳಸಿದ ಇತ್ತೀಚಿನ ಹೆಚ್ಚಿನ ಫಲಿತಾಂಶಗಳು ಬೃಹತ್ ಕಪ್ಪು ಕುಳಿಯು ೪ ದಶಲಕ್ಷ ಸೌರ ದ್ರವ್ಯರಾಶಿಗಳಿಗಿಂತ ದೊಡ್ಡದಾಗಿದೆಯೆಂದು ಸೂಚಿಸಿದೆ.

ಸೌರವ್ಯೂಹದ ರಚನೆ

ಸೌರವ್ಯೂಹದ ರಚನೆ ಮತ್ತು ವಿಕಾಸವು 4.568 ಶತಕೋಟಿ ವರ್ಷಗಳ ಹಿಂದೆ ಆರಂಭವಾಯಿತೆಂದು ಅಂದಾಜು ಮಾಡಲಾಗಿದೆ. ಬೃಹತ್ ಆಣ್ವಿಕ ಮೋಡದ ಸಣ್ಣ ಭಾಗವು ಗುರುತ್ವದಿಂದ ಕುಸಿತವುಂಟಾಗಿ ಸೌರವ್ಯೂಹ ರಚನೆಯಾಯಿತು. ಕುಸಿತಗೊಂಡ ಬಹುತೇಕ ದ್ರವ್ಯರಾಶಿ ಮಧ್ಯಭಾಗದಲ್ಲಿ ಸಂಗ್ರಹವಾಗಿ ಸೂರ್ಯನನ್ನು ನಿರ್ಮಾಣ ಮಾಡಿತು. ಉಳಿದವು ಪ್ರೋಟೊಪ್ಲ್ಯಾನೆಟರಿ ಡಿಸ್ಕ್ (ನಕ್ಷತ್ರವೊಂದರ ಸುತ್ತ ತಿರುಗುವ ಅನಿಲ, ದೂಳಿನ ಚಪ್ಪಟೆಯ ತಟ್ಟೆ) ಆಕಾರ ತಳೆಯಿತು. ಅದರಿಂದ ಗ್ರಹಗಳು, ಚಂದ್ರರು, ಕ್ಷುದ್ರಗ್ರಹಗಳು ಮತ್ತು ಇತರ ಸಣ್ಣ ಸೌರವ್ಯೂಹದ ಕಾಯಗಳು ರಚನೆಯಾದವು. ನೆಬ್ಯೂಲಾರ್ ಹೈಪೋಥಿಸಿಸ್ (ನೀಹಾರಿಕೆಯ ಸಿದ್ಧಾಂತ) ಎಂದು ಹೆಸರಾದ ವ್ಯಾಪಕವಾಗಿ ಅಂಗೀಕೃತವಾದ ಮಾದರಿಯನ್ನು 18ನೇ ಶತಮಾನದಲ್ಲಿ ಇಮ್ಯಾನ್ಯುಯಲ್ ಸ್ವೀಡನ್ ಬರ್ಗ್ ಇಮ್ಯಾನ್ಯುಯಲ್ ಕ್ಯಾಂಟ್ ಮತ್ತು ಪಿಯರೆ ಸೈಮನ್ ಲ್ಯಾಪ್ಲೇಸ್ ಅಭಿವೃದ್ಧಿಪಡಿಸಿದರು. ಇದರ ತರುವಾಯದ ಅಭಿವೃದ್ಧಿಯು ಖಗೋಳಶಾಸ್ತ್ರ, ಭೌತಶಾಸ್ತ್ರ, ಭೂಗೋಳಶಾಸ್ತ್ರ ಮತ್ತು ಗ್ರಹವಿಜ್ಞಾನ ಸೇರಿದಂತೆ ವಿವಿಧ ವೈಜ್ಞಾನಿಕ ಶಿಕ್ಷಣ ವಿಷಯಗಳನ್ನು ಒಟ್ಟಿಗೆ ಹೆಣೆದಿದೆ. 1950ರ ದಶಕದಲ್ಲಿ ಬಾಹ್ಯಾಕಾಶ ಯುಗದ ಉದಯದಿಂದ ಮತ್ತು 1990ರ ದಶಕದಲ್ಲಿ ಸೌರಾತೀತ ಗ್ರಹಗಳ ಶೋಧನೆಯಿಂದ ಮಾದರಿಗಳನ್ನು ಪ್ರಶ್ನಿಸಲಾಗಿದೆ ಹಾಗೂ

ಹೊಸ ಅವಲೋಕನಗಳಿಗೆ ಕಾರಣ ವಿವರಿಸುವುದಕ್ಕಾಗಿ ಪರಿಷ್ಕರಿಸಲಾಗಿದೆ.

ಆರಂಭಿಕ ರಚನೆಯಾದಾಗಿನಿಂದ ಸೌರವ್ಯೂಹವು ಗಣನೀಯವಾಗಿ ವಿಕಾಸಗೊಂಡಿದೆ. ಮಾತೃ ಗ್ರಹಗಳ ಸುತ್ತಲೂ ಸುತ್ತುತ್ತಿರುವ ಅನಿಲ ಮತ್ತು ಧೂಳಿನಿಂದ ಕೂಡಿದ ಚಪ್ಪಟೆಯಾಕಾರದ ತಟ್ಟೆಗಳಿಂದ ಅನೇಕ ಚಂದ್ರರ ರಚನೆಯಾಯಿತು. ಇತರ ಚಂದ್ರರು ಸ್ವತಂತ್ರವಾಗಿ ರಚನೆಗೊಂಡಿವೆ ಹಾಗೂ ಅನಂತರ ಇವುಗಳನ್ನು ಅವುಗಳ ಗ್ರಹಗಳು ಸೆರೆಹಿಡಿದಿವೆ ಎಂದು ನಂಬಲಾಗಿದೆ. ಭೂಮಿಯ ಉಪಗ್ರಹ ಚಂದ್ರನಂತಹ ಇತರ ಚಂದ್ರರು ಬಹುಶಃ ದೈತ್ಯಕಾರದ ಗ್ರಹಗಳ ಡಿಕ್ಕಿಯಿಂದಾಗಿ ರಚನೆಗೊಂಡಿರಬಹುದು. ಕಾಯಗಳ ನಡುವೆ ಡಿಕ್ಕಿಯು ಪ್ರಸ್ತುತ ದಿನದವರೆಗೆ ಸತತವಾಗಿ ಸಂಭವಿಸಿರಬಹುದು ಮತ್ತು ಸೌರವ್ಯೂಹದ ವಿಕಾಸಕ್ಕೆ ಕೇಂದ್ರವಾಗಿದೆ.

ಸುಮಾರು 5 ಶತಕೋಟಿ ವರ್ಷಗಳಲ್ಲಿ ಸೂರ್ಯನು ತಂಪಾಗಿ ತನ್ನ ಪ್ರಸಕ್ತ ವ್ಯಾಸವನ್ನು ಹೊರಗಡೆ ಅನೇಕ ಪಟ್ಟು ವಿಸ್ತರಿಸುತ್ತದೆ (ಕೆಂಪು ದೈತ್ಯ ನಕ್ಷತ್ರವಾಗುತ್ತದೆ) ಹಾಗೂ ತನ್ನ ಹೊರ ಪದರವನ್ನು ಗ್ರಹ ನೀಹಾರಿಕೆಯಾಗಿ ಎರಚುತ್ತದೆ ಹಾಗೂ ಶ್ವೇತ ಕುಬ್ಜತಾರೆ ಎಂದು ಹೆಸರಾದ ನಾಕ್ಷತ್ರಿಕ ಅವಶೇಷವನ್ನು ಹಿಂದೆ ಬಿಡುತ್ತದೆ. ದೂರದ ಭವಿಷ್ಯದಲ್ಲಿ, ಹಾದುಹೋಗುವ ನಕ್ಷತ್ರಗಳ ಗುರುತ್ವವು ಕ್ರಮೇಣ ಸೂರ್ಯನ ಗ್ರಹಗಳ ಪರಿವಾರವನ್ನು ಕುಗ್ಗಿಸುತ್ತದೆ. ಕೆಲವು ಗ್ರಹಗಳು ನಾಶವಾಗುತ್ತವೆ, ಇತರ ಗ್ರಹಗಳು ಅಂತರತಾರಾ ಬಾಹ್ಯಾಕಾಶದಲ್ಲಿ ಚಿಮ್ಮುತ್ತವೆ. ಅಂತಿಮವಾಗಿ ಒಂದು ಲಕ್ಷ ಕೋಟಿ ವರ್ಷಗಳ ಕಾಲಾವಧಿಯಲ್ಲಿ ಸೂರ್ಯನು ಏಕಾಂಗಿಯಾಗಿರುವಾಗ ಅದರ ಸುತ್ತ ಕಕ್ಷೆಯಲ್ಲಿ ಯಾವುದೇ ಕಾಯಗಳು ಇರುವುದಿಲ್ಲ ಎಂದು ಊಹಿಸಲಾಗಿದೆ.

ನೀಲಕರಂಜಿ ಹೂವು

ಕರ್ನಾಟಕದ ಪಶ್ಚಿಮ ಘಟ್ಟಗಳ ಸ್ಥಳೀಯವಾದ ನೀಲಕರಂಜಿ ಹೂವುಗಳು ಪ್ರತಿ ಹನ್ನೆರಡು ವರ್ಷಗಳಿಗೊಮ್ಮೆ ಉಸಿರುಕಟ್ಟುವ ದೃಶ್ಯದಲ್ಲಿ ಅರಳುತ್ತವೆ. ಭೂದೃಶ್ಯವನ್ನು ತಮ್ಮ ರೋಮಾಂಚಕ ನೇರಳೆ ನೀಲಿ ವರ್ಣಗಳಿಂದ ಅಲಂಕರಿಸುತ್ತವೆ. ಅವರ ಸೌಂದರ್ಯದ ಆಕರ್ಷಣೆಯನ್ನು ಮೀರಿ, ಈ ಹೂವುಗಳು ಸಾಂಸ್ಕೃತಿಕ ಪರಂಪರೆ, ಪರಿಸರ ಸಮತೋಲನ ಮತ್ತು ಈ ಪ್ರದೇಶದಲ್ಲಿ ಮಾನವರು ಮತ್ತು ಪ್ರಕೃತಿಯ ನಡುವಿನ ಸಂಕೀರ್ಣ ಬಂಧವನ್ನು ಸಂಕೇತಿಸುತ್ತವೆ. ನೀಲಕರಂಜಿ ಹೂವುಗಳು ಅರಳುವುದನ್ನು ಭವ್ಯವಾದ ನೈಸರ್ಗಿಕ ಘಟನೆಯಾಗಿ ಆಚರಿಸಲಾಗುತ್ತದೆ. ಸ್ಥಳೀಯ ಸಮುದಾಯಗಳು ಕಲಾವಿದರು ಮತ್ತು ಪ್ರವಾಸಿಗರು ಈ ವಿದ್ಯಮಾನವನ್ನು ಕುತೂಹಲದಿಂದ ನಿರೀಕ್ಷಿಸುತ್ತಾರೆ. ನೀಲಕರಂಜಿ ಸೀಸನ್ ಎಂದು ಕರೆಯಲ್ಪಡುವ ಹೂಬಿಡುವ ಋತುವಿನಲ್ಲಿ ದೂರದಿಂದ ಸಾವಿರಾರು ಪ್ರವಾಸಿಗರನ್ನು ಆಕರ್ಷಿಸುತ್ತದೆ. ಈ ಪ್ರದೇಶಕ್ಕೆ ಸಾಂಸ್ಕೃತಿಕ ವಿನಿಮಯ ಮತ್ತು ಆರ್ಥಿಕ ಅವಕಾಶಗಳನ್ನು ಉತ್ತೇಜಿಸುತ್ತದೆ. ನೀಲಕರಂಜಿ ಹೂವುಗಳು ಪಶ್ಚಿಮ ಘಟ್ಟಗಳ ಪರಿಸರ ವ್ಯವಸ್ಥೆಯ ಪರಿಸರ ಸಮತೋಲನದಲ್ಲಿ ನಿರ್ಣಾಯಕ ಪಾತ್ರವನ್ನು ವಹಿಸುತ್ತವೆ. ಒಂದು ಪ್ರಮುಖ ಜಾತಿಯಾಗಿ ಅವು ವೈವಿಧ್ಯಮಯ ಸಸ್ಯ ಮತ್ತು ಪ್ರಾಣಿಗಳ ಜೀವನವನ್ನು ಬೆಂಬಲಿಸುತ್ತವೆ. ವಿವಿಧ ಜೀವಿಗಳಿಗೆ ಆಹಾರ ಮತ್ತು ಆವಾಸ ಸ್ಥಾನವನ್ನು ಒದಗಿಸುತ್ತವೆ. ಅವುಗಳ ಪರಿಸರ ಮತ್ತು ಸಾಂಸ್ಕೃತಿಕ ಪ್ರಾಮುಖ್ಯತೆಯ ಹೊರತಾಗಿಯೂ, ನೀಲಕರಂಜಿ ಹೂವುಗಳು ಆವಾಸಸ್ಥಾನದ ನಷ್ಟ, ಅರಣ್ಯನಾಶ ಮತ್ತು ಹವಾಮಾನ ಬದಲಾವಣೆಯಿಂದ ಬೆದರಿಕೆಯನ್ನು ಎದುರಿಸುತ್ತವೆ. ಈ ಅಮೂಲ್ಯ ಹೂವುಗಳನ್ನು ಮತ್ತು ಅವುಗಳ ಆವಾಸಸ್ಥಾನವನ್ನು ರಕ್ಷಿಸಲು ಸಂರಕ್ಷಣಾ ಪ್ರಯತ್ನಗಳು ಅತ್ಯಗತ್ಯ. ಮರು ಅರಣ್ಯೀಕರಣ, ಆವಾಸಸ್ಥಾನ ಮರುಸ್ಥಾಪನೆ ಮತ್ತು ಸಮುದಾಯ ಆಧಾರಿತ ಸಂರಕ್ಷಣಾ ಯೋಜನೆಗಳಂತಹ ಉಪಕ್ರಮಗಳು ನೀಲಕರಂಜಿ ಹೂವುಗಳು ಎದುರಿಸುತ್ತಿರುವ ಅಪಾಯಗಳನ್ನು ತಗ್ಗಿಸಲು ಮತ್ತು ಅವುಗಳ ದೀರ್ಘಾವಧಿಯ ಬದುಕುಳಿಯುವಿಕೆಯನ್ನು ಖಚಿತಪಡಿಸಿಕೊಳ್ಳಲು ಸಹಾಯ ಮಾಡುತ್ತದೆ.

ಚಲಿಸುವ ಮನಸ್ಸು

ಒಂದು ದಿನ ಇಬ್ಬರು ವ್ಯಕ್ತಿಗಳು ಹಾರಾಡುತ್ತಿರುವ ಧ್ವಜದ ಬಗ್ಗೆ ಪರಸ್ಪರ ವಾದ ಮಾಡುವುದರಲ್ಲಿ ಮಗ್ನರಾಗಿದ್ದರು. ಆಗ ಅವರಲ್ಲಿದ್ದ ಒಬ್ಬ ವ್ಯಕ್ತಿ 'ಗಾಳಿ ಚಲಿಸುತ್ತಿದೆ' ಎನ್ನುತ್ತಾನೆ. ತಕ್ಷಣವೇ ಮತ್ತೊಬ್ಬ 'ಇಲ್ಲ ಧ್ವಜ ಹಾರಾಡುತ್ತಿದೆ' ಎನ್ನುತ್ತಾನೆ. ಅವರ ವಾದವನ್ನು ಆಲಿಸಿಕೊಂಡ ಗುರುವೊಬ್ಬ ಅಲ್ಲಿಗೆ ಬರುತ್ತಾನೆ. ಅವರಿಬ್ಬರ ನಡುವಿನ ವಾದವನ್ನು ಗಮನಿಸಿದ ಆತ ಹೀಗೆ ಹೇಳುತ್ತಾನೆ, ಗಾಳಿಯೂ ಚಲಿಸುತ್ತಿಲ್ಲ. ಧ್ವಜವೂ ಹಾರಾಡುತ್ತಿಲ್ಲ, ಚಲಿಸುತ್ತಿರುವುದು ನಿಮ್ಮಿಬ್ಬರ ಮನಸ್ಸು ಎಂದು ಹೇಳುತ್ತಾರೆ. ಅಂದರೆ ನಮ್ಮ ಮನಸ್ಸು ಒಂದು ಕ್ಷಣ ಸುಮ್ಮನೇ ನಿಶ್ಚಲವಾಗಿರುವುದಕ್ಕೆ ಸಾಧ್ಯವಿಲ್ಲ. ಕುಂತಲ್ಲಿ, ನಿಂತಲ್ಲಿ ಮನಸ್ಸು ಎಲ್ಲೆಲ್ಲೋ ಚಲಿಸುತ್ತಲೇ ಇರುತ್ತದೆ ಎಂಬುದು ಈ ಕಥೆಯ ಸಾರಾಂಶ.

ಒಂದು ರೊಟ್ಟಿಯ ಕಥೆ

ಒಂದು ಊರಿನಲ್ಲಿ ಒಬ್ಬ ಒಳ್ಳೆಯ ಮಹಿಳೆ, ಆ ಮಹಿಳೆ ಪ್ರತಿ ದಿನ ರೊಟ್ಟಿ ಮಾಡಿ ತನ್ನ ಮನೆಯ ಕಿಟಕಿ ಬಳಿ ಇಡುತ್ತಿದ್ದಳು. ಆ ರೊಟ್ಟಿಯನ್ನು ಒಬ್ಬ ಸಾಧು ಪ್ರತಿದಿನ ತೆಗೆದುಕೊಂಡು ಒಂದು ಮಾತು ಹೇಳುತ್ತಿದ್ದ. "ನೀನು ಒಳ್ಳೆಯದನ್ನು ಮಾಡಿದರೆ ನಿನಗೆ ಒಳ್ಳೆಯದು ಆಗುತ್ತದೆ, ನೀನು ಕೆಟ್ಟದ್ದನ್ನು ಮಾಡಿದರೆ ನಿನಗೆ ಕೆಟ್ಟದ್ದು ಆಗುತ್ತದೆ" ಎಂದು. ಆ ಮಹಿಳೆಯ ಒಬ್ಬನೇ ಮಗ ಮನೆ ಬಿಟ್ಟು ಓಡಿ ಹೋಗಿದ್ದ.

ಸಾಧುವಿನ ವರ್ತನೆ ಮತ್ತು ಅವನು ಹೇಳುವ ಮಾತು ಆ ತಾಯಿಗೆ ಇಷ್ಟವಾಗದೇ, ಒಂದು ದಿನ ಅವಳು "ನಾನು ಪ್ರತಿದಿನ ಈ ಸಾಧುವಿಗೆ ರೊಟ್ಟಿ ಕೊಟ್ಟರು, ನನ್ನ ಮಗ ಬರಲಿಲ್ಲ" ಎಂಬ ನೂರಾರು ಆಲೋಚನೆ ಮಗನನ್ನು ಕಳೆದುಕೊಂಡ ಅವಳಲ್ಲಿ ಬಂದು, ಆ ದಿನ ಅವಳು ಮಾಡುವ ರೊಟ್ಟಿಯಲ್ಲಿ ವಿಷ ಬೆರೆಸಿ ಇಟ್ಟಳು. ಸ್ವಲ್ಪ ಸಮಯದ ನಂತರ ಅವಳ ಹೃದಯ "ನೀನು ಮಾಡಿದ್ದು ತಪ್ಪು" ಎಂದು ಹೇಳಿತು. ತಕ್ಷಣ ಅವಳು ಬೇರೆ ಒಳ್ಳೆಯ ರೊಟ್ಟಿ ಮಾಡಿ ಇಟ್ಟಳು.

ಎಂದಿನಂತೆ ಸಾಧು ಬಂದು ರೊಟ್ಟಿ ತೆಗೆದುಕೊಂಡು ಹೋದನು. ಆಗ ಮನೆಯ ಬಾಗಿಲು ಬಡಿಯುತ್ತಿರುವ ಶಬ್ದ ಕೇಳಿಸಿ ಬಾಗಿಲು ತೆರೆದು ನೋಡುತ್ತಾಳೆ. ಆಶ್ಚರ್ಯ ಅವಳ ಮಗ ಪ್ರತ್ಯಕ್ಷ ಆಗಿದ್ದಾನೆ. ಮಗ ಹೇಳಿದ ಮೂರು ದಿನದಿಂದ ಊಟ ಮಾಡಿರಲಿಲ್ಲಾ, ಒಬ್ಬ ಸಾಧು ನನಗೆ ತಮ್ಮ ಬಳಿ ಇರುವ ರೊಟ್ಟಿ ಕೊಟ್ಟು ಹೋಗುತ್ತಾ ಒಂದು ಮಾತು ಹೇಳಿದರು. <u>ಆತ್ಮವಿಶ್ವಾಸ</u>

ಬದುಕಿರುವಷ್ಟು ಕಾಲ ಉತ್ಸಾಹದಿಂದ ಬದುಕಬೇಕು. ಬದುಕಿನಲ್ಲಿ ಏನನ್ನಾದರೂ ಸಾಧಿಸುತ್ತೇನೆಂಬ ಛಲವಿರಬೇಕು, ಆತ್ಮಬಲವಿರಬೇಕು. ಈ ಜೀವನೋತ್ಸಾಹ ಮತ್ತು ಆತ್ಮ ವಿಶ್ವಾಸಗಳೇ ನಮ್ಮ ಜೀವನದ ಶ್ರೇಯಸ್ಸಿಗೆ

ಕಾರಣ, ಯಶಸ್ಸಿಗೆ ತೋರಣ. ಇಂಗ್ಲೆಂಡ್ ದೇಶದ ಒಂದು ಹಳ್ಳಿಯಲ್ಲಿ ಒಬ್ಬ ಬಡ ಹುಡುಗನಿದ್ದ. ಆತ ಶಾಲೆಯೇನು ಆಷ್ಟಾಗಿ ಕಲಿತಿರಲಿಲ್ಲ. ಆದರೆ, ಅವನಿಗೆ ಜೀವನದಲ್ಲಿ ಏನಾದರೂ ಸಾಧಿಸಬೇಕೆಂಬ ಉತ್ಸಾಹ ತುಂಬಿ ತುಳುಕುತ್ತಿತ್ತು. ಬರಿಗೈಯಿಂದಲೇ ಲಂಡನ್ ಪಟ್ಟಣಕ್ಕೆ ಬಂದ. ಅಲ್ಲಿ ಒಂದು ಸುಂದರವಾದ ತೋಟ, ಆ ತೋಟದ ಮನೆಯಲ್ಲಿ ಲಂಡನ್ ಪಟ್ಟಣದ ಮೇಯರ್ ಇರುತ್ತಿದ್ದ. ರಾಜ ಮಹಾರಾಜರಿಗೆ ಸರಿಸಾಟಿ ಇರುವ ಮೇಯರ್ ಪದವಿ. ತೋಟದಲ್ಲಿ ಕುಳಿತಿದ್ದ ಬಾಲಕ ಮರದಲ್ಲಿದ್ದ ಪಕ್ಷಿಗೆ ಹೇಳುತ್ತಿದ್ದ, 'ನಾನು ವಿಟ್ಟಿಂಗ್‌ಟನ್, ಭವಿಷ್ಯದಲ್ಲಿ ಈ ಲಂಡನ್ ಪಟ್ಟಣದ ಮೇಯರ್. ಆದ್ದರಿಂದ ನೀನು ಈಗಲೇ ನಾನು ಹೇಳಿದಂತೆ ಹೇಳು. 'ವಿಟ್ಟಿಂಗಟನ್, ವಿಟ್ಟಿಂಗಟನ್, ಲಂಡನ್ ಪಟ್ಟಣದ ಮೇಯರ್...!' ಹೀಗೆ ಜೋರಾಗಿ ಹೇಳುತ್ತಿದ್ದಾಗ ಈ ಮಾತು ಅಲ್ಲೆ ಇದ್ದ ಮೇಯರ್ ನಿಗೆ ಕೇಳಿಸಿತು. ಬಾಲಕನನ್ನು ಸಮೀಪಿಸಿ ಕೇಳಿದ, 'ನೀನು ಲಂಡನ್ನಿನ ಮೇಯರ್ ಆಗಬಯಸುವಿಯಾ?' ಆಗ ವಿಟ್ಟಿಂಗಟನ್, 'ಆಗುವುದೇನು ಬಂತು ಸರ್, ನಾನು ಜನ್ಮತಃ ಲಂಡನ್ನಿನ ಮೇಯರ್. ಆದರೆ, ಇಂದು ಜನರಿಗೆ ಗೊತ್ತಿಲ್ಲ. ಮುಂದೊಂದು ದಿನ ಗೊತ್ತು ಮಾಡಿಕೊಡಬೇಕಿದೆ ಅಷ್ಟೆ!' ಎಂದ. ಬಾಲಕನ ಮುಖದ ಮೇಲಿನ ಕಳೆ, ಕಣ್ಣುಗಳ ತೇಜಸ್ಸು, ಮನದಲ್ಲಿ ಆತ್ಮವಿಶ್ವಾಸ ಕಂಡು ಮೇಯರ್ ಬೆರಗಾದ. ಆ ಬಾಲಕನನ್ನು ತನ್ನ ಮನೆಯಲ್ಲಿ ಇಟ್ಟುಕೊಂಡು ಒಳ್ಳೆಯ ಶಿಕ್ಷಣ ಕೊಡಿಸಿದ. ಮುಂದೆ ಅದೇ ಬಾಲಕನು ಲಂಡನ್ ಪಟ್ಟಣದ ಮೇಯರ್ ಆದ! ಎಂಥ ಆದ್ಭುತ ಅಲ್ಲವೇ? ಜೀವನೋತ್ಸಾಹ ಮತ್ತು ಆತ್ಮವಿಶ್ವಾಸವಿದ್ದರೆ ಭಗೀರಥನಂತೆ ಜೀವನದಲ್ಲಿ ಏನಾದರೂ ಸಾಧಿಸಬಹುದು.

Meine unvergessliche Reise nach Europa

Meine Eltern und ich sind nach Paris und in die Schweiz gefahren. In Paris haben wir in einem schönen Hotel gewohnt. Aber das Hotelzimmer ist sehr klein gewesen. Ich habe jeden Tag morgens heiße Schokolade getrunken. Wir haben den Eiffelturm besucht. Wir sind auch im Disneyland Paris gegangen. Wir haben viele Aufführungen gesehen und viele Fotos gemacht. Wir haben auch viele Fahrgeschäfte gemacht. Es hat sehr viel Spaß gemacht.
Wir haben Interlaken und Luzern in der Schweiz besucht. Wir sind mit der Seilbahn gefahren. Ich habe zum ersten Mal Schnee gesehen. Ich habe auch einen kleinen Schneemann gemacht. Es war sehr kalt in Interlaken. Wir sind auf das Jungfraujoch gefahren, die höchste Bahnstation Europas. In Luzern haben wir uns noch ein paar Berge angesehen. Wir haben auch eine Bootsfahrt gemacht. Ich habe die Reise sehr genossen und werde sie nie vergessen.

Advent Card

Der Advent ist die Zeit der Vorbereitung auf die Feier der Geburt Jesu Christi zu Weihnachten und auch der Vorbereitung auf die Wiederkunft Christi. Der Advent beginnt am 1. Dezember und endet am 24. Dezember. Die Adventsfeier begann im fünften Jahrhundert, als Bischof Perpetuus anordnete, dass man ab dem Martinstag am 11. November bis Weihnachten dreimal pro Woche fasten sollte. Deshalb wurde der Advent manchmal auch "Martins Fasten" genannt. Familien können während des Abendessens vier Kerzen von jede Woche Adventskranz anzünden, gefolgt von einer bedeutungsvollen Lesung oder einem Gebet. Jede Kerze repräsentiert etwas anderes - Liebe, Hoffnung, Freude und Frieden.

LA CUISINE FRANCAIS

La cuisine française est I 'un des types d'aliments les plus populaires et est très connu dans le monde entier pour sa qualité. Les français ont acquis leurs techniques à travers l'histoire sous une forme qui est un peu d'unique. Ils ont eu beaucoup de leur notoriété à cause du fait qu'ils ont été gouvernés par beaucoup de pays et groupes de personnes qui a conquis la France pour les dernières 2000 années

Alors, chaque fois un nouveau roi vient, Nouvelles idées et techniques ont été présenté aux cuisines françaises. On dit que la France a commencé leur at culinaire du 16th century par la femme de Henry II, Catherine de Médicis. Ils ont apporté leurs cuisiniers personnels avec eux partout où ils vont.

Plus tard, les livres de cuisine du 19th century a solidifié la cuisine française. La Cuisine Classique par Urbain Dubois et Emily Bernard. Dans le livre, ils ont suggéré portion la nourriture quand il est encore chaud et ont été fortement critiques pour-il mais aujourd'hui les français apprécient il et il est maintenant adopté par tout le monde.

Un jour Moyenne en France commence avec le petit- déjeuner. C'est habituellement consisté du café ou du chocolat chaud, parfois avec un croissant qui est fait d'une pâtisserie ou un pain feuilleté à base de beurre. Le déjeuner plutôt décontracté.

C'est habituellement commencé avec hors d'ouvres. Viande ou poisson suit, et le repas finit avec le fromage, fruit ou quelque fois un dessert. Après l'école beaucoup d'enfants mangent un général collation saine de fruit ou du pain pour les dépanner. C'est ce qu'on appelle goûter. Le goûter est quand toute la famille se réunir et parler de leur journée.

Cela comporte toujours quelques cours. La plupart des diners se terminent par du vin et un dessert quelconque. L'Apéritif est un costume national en France. Cela se produit avant le repas, lorsque la famille se réunit environ une demi- heure avant un repas pour partager un verre, un petit apéritif et une conversation avec la famille, les amis et les voisins.

Il s'agit d'une activité social établie qui est appréciée par des personnes de tous âges et qui constitue une partie importante de la vie à la maison et dans les restaurants.

Cher ami,

Aujourd'hui, j'voudrais partager mon expérience à Paris avec vous. Je vais bien, J'espère que tu vas bien, J'ai bien passé le Dimanche dernier avec mes amis à Paris. Quand je suis arrivé à Paris il faisait beau. J'ai fait mes réservations à l'hôtel qui est situé près de la Tour Eiffel. D'où, j'ai une merveilleuse vue de la Tour Eiffel. Après, je suis resté à l'hôtel pour me reposer quelque temps parce que j'ai été très fatiguée après un long trajet.
Tout d'abord je suis allé voir la Tour d'Eiffel qu'un des sept merveilles du monde qui est la première destination mondiale en France. Il est très magnifique. Il y'avait beaucoup de monde qui voyagent. J'ai rencontré beaucoup de gens qui ont parlé de leur pays dans leurs langues et à propos de la Tour Eiffel. C'était une grande expérience pour moi les parisiens sont très sympas, généreux avec un joli sourire

Ensuite, j'ai visité le musée du Louvre ce qui très célèbre au monde entier, j'ai apprécié l'art des peintures et des sculptures spécialement "La Mona Lisa" Créé par Leonardo Da Vinci et après j'ai fait une petite tour de la fleuve Seine. Puis j'avais très faim. J'aime la cuisine et j'ai essayé la cuisine française. J'ai bien aimé les soupes de poisson, les fromages et le caviar. Ils sont délicieux.

Maintenant je voudrais parler quelque chose de la vie nocturne à Paris. Je regardais le spectacle du Moulin Rouge et après j'ai fait des courses de magasin. J'ai acheté les vêtements et les souvenirs pour mesa mis et ma famille en Inde. Ensuite je suis allée à la discothèque avec mes amis. Il y'avait beaucoup de jeunes couples qui dansaient, buvaient et faisaient beaucoup de bruit. Nous nous sommes bien amusés

Finalement, J'étais fatigue et je suis rentrée à l'hôtel. J'ai découvert l'art, le climat, la cuisine et la culture Parisienne. C'était une expérience très unique qui var ester dans ma mémoire pour longtemps.

Triumph and frustration are two sides of the same coin—either victorious or unsuccessful. "The Odyssey," the epic by ancient Greek poet Homer, is filled with adventure, struggle, and hard-won triumph. Odysseus used his strength and ingenuity to overcome the various challenges in his path. Similarly, let's celebrate our competitive and united students who channeled their strength, winning sporting awards and bringing eternal glory to our school.
